EXAM!**

The possession or use of any communication device is strictly prohibited during this examination. If you have or use any communication device, your examination will be invalidated and no score will be calculated for you.

Knowledge of Earth science is essential for understanding the physical setting of New York State. The examination assesses your knowledge of Earth science concepts and your ability to apply this knowledge to solve problems.

The examination is divided into two parts: Part 1 and Part 2. Part 1 consists of multiple-choice questions, and Part 2 consists of short-answer and essay questions.

Part 1 is the first section of the examination and contains 40 multiple-choice questions. You will have 60 minutes to complete this section.

Part 2 is the second section of the examination and contains 10 short-answer and 2 essay questions. You will have 90 minutes to complete this section.

Before the examination, you will receive a copy of the 2012 Edition of the Physical Setting Earth Science Reference Tables, which is available for use while taking the examination.

DO NOT OPEN THIS EXAMINATION BOOKLET UNTIL THE SIGNAL IS GIVEN.

A Pedagogical Design for Human Flourishing Cynthia McCallister, 2022-03-28 In *A Pedagogical Design for Human Flourishing Transforming Schools with the McCallister Model* Cynthia McCallister presents a revolutionary paradigm for education that is practical conceptually convincing and grounded in contemporary behavioral science theory Beginning with the assertion that equality of educational opportunity depends on access to experiences that are sufficiently appropriate and rich to enable the achievement of diverse human potentials she provides a comprehensive school design for intervention that demonstrates how to achieve it Grounded in recent advances in learning science McCallister asserts three necessary conditions for learning the need for learners to have access to diverse rich environmental experiences the need for them to enjoy fundamental freedom and autonomy to direct their own learning and access to full and free forms of association In her model these conditions provide what is necessary for learners to coordinate their minds with others to develop their identities personalities and talents These conditions are animated in concrete procedures that can be adapted to a wide variety of populations in formal informal and remote educational settings The procedures take the form of rules that learners comply with in the exercise of their freedom When they are followed the rules provide a grammar for the social norms that govern the moral worlds of learners and compel them to flourish Tested over two decades in her work as a teacher scholar and school reformer in more than 20 NYC public schools the McCallister Method has delivered an innovative and disruptive approach to schooling that has proven successful in finally transforming low performing industrial schools into 21st century
