Discussion

MS Project, the project management software program by Microsoft, is a very handy tool for project managers that helps them develop a schedule, assign resources to tasks, track the progress, manage the budget, and analyze workloads for an ongoing project. This tutorial discusses the various features of the software program with examples for easy understanding.

Audience

This tutorial has been designed keeping in mind the needs of beginner level MS Project user. Project managers and Project planners from varied backgrounds who have not used MS Project, especially the 2013 edition before can use this tutorial for scheduling, planning, and reporting their projects of any size. This tutorial is designed with Project Standard features, hence there is no need of Project Professional.

Prerequisites

A basic understanding of Computers and Windows Operating System is all it takes to get started. Hardware: A reasonable home desktop configuration. Software: MS Project 2013 on Windows OS. (At the time of writing this tutorial, Project 2013 is not available for Mac)

Microsoft Project 2010: The Missing Manual Bonnie Biafore, 2010-06-21 Microsoft Project is brimming with features to help you manage any project, large or small. But learning the software is only half the battle. What you really need is real-world guidance: how to prep your project before touching your PC, which Project tools work best and which ones to use with care. This book explains it all, helping you go from project manager to project master. Get a project management primer. Discover what it takes to handle a project successfully. Learn the program inside out. Get step-by-step instructions for Project Standard and Project Professional. Build and refine your plan. Put together your team, schedule, and budget. Achieve the results you want. Build realistic schedules and learn how to keep costs under control. Track your progress. Measure your performance, make course corrections, and manage changes. Use Project's power tools. Customize Project's features and views and transfer info directly between Project and other programs.
