Everyday Diary And Notebook 2015:

Everyday Mobilities in Nineteenth- and Twentieth-Century British Diaries Colin G. Pooley, Marilyn E.

Pooley, 2022-10-19 This book uses diaries written by ordinary British people over the past two centuries to examine and explain the nature and extent of everyday mobilities such as travel to school to work to shop or to visit friends and to explore the meanings attached to these mobilities After a critical evaluation of diary writing the ways in which mobility changed over time interacted with new forms of transport technology and varied from place to place are examined Further chapters focus on the roles of family and life course gender income and class and journey purpose in shaping mobilities including immobility It is argued that easy and frequent everyday mobilities were experienced by most of the diarists studied that travellers could exercise their own agency to adapt easily to new forms of transport technology but that factors such as gender class and location also created significant mobility inequalities **Everyday Diary and Notebook 2015** New Internationalist, 2014
