Ghost Story S From The 90s:

Readers' Guide to Periodical Literature Anna Lorraine Guthrie, 1929 An author subject index to selected general interest periodicals of reference value in libraries *The Incorporeal Corpse* Jason B. Dorwart, 2022-09-23 In this book Jason B Dorwart contends that the material presence of visible disability disrupts the framing devices that provide safe distancing for theatre s fictive nature Conceptions of disability that place the disabled body into a permanently liminal space between life and death are directly at odds with theatrical performances which are geared toward moving through liminality into a new point of stasis Dorwart reveals how this contradiction leads to performance practices that work to marginalize and eliminate the presence of disabled bodies of both character and actor as disabled characters have historically been written with different character arcs than nondisabled characters and with the assumption that they would be played by nondisabled actors As more disabled actors gain exposure in film and theatre the difference in how disabled characters are written is also increasingly affected by whether the role is intended for a disabled or nondisabled actor These performances are enacting new means to performatively and figuratively reincorporate or eliminate the liminal disabled body The Incorporeal Corpse demonstrates how recent plays and films try to rectify this tension between the permanence of disability and the transitory nature of performance Scholars of theatre disability studies and performance studies will find this book of particular interest
