History of Intellectual Culture 3/2024 Charlotte A. Lerg, Johan Östling, Jana Weiß, Anne Kwaschik, Claudia Roesch, 2024-10-21 The third issue of the yearbook History of Intellectual Culture HIC devotes a thematic section to experimental spaces for knowledge production The articles in this section investigate the role of experimental environments as sites for knowledge production during the long nineteenth century thereby extending the scope beyond the confines of traditional academic institutions such as academies laboratories and universities By focusing on intentional communities colonial gardens agricultural colonies and artistic colonies as experimental spaces the authors investigate the intertwined social natural and aesthetic aspects of environments An overarching aim is to develop a distinct perspective rooted in the history of knowledge wherein experiments are conceptualized both as a category employed by the historical actors and as a methodological concept In addition the third issue comprises several individual papers covering a wide range of topics stretching from the U S patent system in the 1930s and anti intellectualism in interwar Britain to the cultural translation of knowledge in the wake of the Holocaust and the circulation of economic knowledge in postwar Sweden The issue also contains several theoretical historiographical and methodological interventions and reflections including a conversation on decolonizing knowledge in academia and beyond

Reshaping STEM Education: Strategies for Curriculum Decolonization and Institutional Transformation Zahid Pranjol, Alia Amir, 2025-11-13 The field of STEM higher education is currently grappling with the imperative need for transformative discourse to address its historical epistemological and colonial underpinnings Despite significant advancements in STEM disciplines there remains a critical gap in inclusivity and equity within higher educational institutes Recent studies have highlighted the persistent colonial structures that shape STEM education often marginalizing diverse voices and perspectives Efforts to decolonize STEM education are gaining momentum yet there is a pressing need for comprehensive research and reflective insights to uproot these entrenched structures This research topic aims to address these gaps by fostering a robust dialogue that transcends traditional boundaries promoting a deeper understanding of the challenges and opportunities in reshaping STEM education through decolonial lenses This research topic aims to provide a scholarly platform for researchers educators and practitioners to contribute groundbreaking research and reflective insights on decolonizing STEM higher education The primary goal is to facilitate a robust dialogue that transcends traditional boundaries fostering a deeper understanding of the challenges and opportunities in reshaping STEM education through decolonial lenses
