Second Language Educational Experiences for Adult Learners John M. Norris, John McE. Davis, Veronika Timpe-Laughlin, 2017-04-21 Second Language Educational Experiences for Adult Learners provides an up to date review of the theory and practice of adult second language education The primary objective is to introduce core ideas that should inform the design development and delivery of language learning experiences that take the typical forms of materials courses teaching and assessment Divided into three sections the book first addresses what we know about adult second language acquisition and how individuals may acquire languages differently from each other In the second section key educational design elements from pedagogical methods to curriculum to assessment are then introduced from the perspective of research based understandings about effective practices Rounding out the volume is an overview of critical issues for language educational innovation including supporting teachers localizing materials and instruction evaluating and improving education and working with technology Each chapter concludes with a set of recommended design principles that should guide readers toward high quality valuable and empirically supported language educational experiences This volume will be of interest to researchers and students investigating instructed language learning designers creating useful language learning materials and language teaching innovators seeking to improve outcomes in diverse instructional settings around the world

Innovations and Challenges in Grammar Michael McCarthy, 2020-05-19 Innovations and Challenges in Grammar traces the history of common understandings of what grammar is and where it came from to demonstrate how rules are anything but fixed and immutable In doing so it deconstructs the notion of correctness to show how grammar changes over time thereby exposing the social and historical forces that mould and change usage The questions that this book grapples with are Can we separate grammar from the other features of the language system and get a handle on it as an independent entity Why should there be strikingly different notions and models of grammar Are they compatible Which one or ones fit s best the needs of applied linguists if we assume that applied linguists address real world problems through the lens of language And which one s could make most sense to non specialists If grammar is not a fixed entity but a set of usage norms in constant flux how can we persuade other professionals and the general public that this is a positive observation rather than a threat to civilised behaviour This book draws upon both historical and modern grammars from across the globe to provide a multi layered picture of world grammar It will be useful to teachers and researchers of English as a first and second language though the inclusion of examples from and occasional references to other languages French Spanish Malay Swedish Russian Welsh Burmese Japanese is intended to broaden the appeal to teachers and researchers of other languages It will be of use to final year undergraduate postgraduate and doctoral students as well as secondary and tertiary level teachers and researchers in applied linguistics second language acquisition and grammar pedagogy **UZRT**
