Epiphany Part Two:

Prayer Book Parallels Volume II (Paperback) Paul V. Marshall, 2000-01-20 The two volumes of Prayer Book Parallels are aids to the study of the development of the American book from as many points of view as possible. They include liturgical texts and related historical documents. Volume Two is a comparison of Collects, Family Prayers and Prayers at Sea as well as the Articles of Religion, the Psalter and other texts and documents pertinent to Prayer Book study. The two volumes are of great value to seminarians, clergy, church historians and anyone interested in the development of the present Prayer Book.

576 pp The Holy Sh!t Moment James Fell, 2019-01-22 Motivation expert James Fell teaches readers how to skip the hard part and go directly from intention to committed action. After years of helping people change, James Fell had a sudden insight about sudden insight: significant life change doesn't often come from just putting one foot in front of the other, carefully observing and altering habits, slogging through baby steps toward new behavior. Rather, the research reveals that serious life turnaround usually happens in a moment with a flash of inspiration. Epiphany arrives like a lightning strike, rapidly shifting the recipient of such enlightenment onto a new path that creates a better life. Motivational psychology has traditionally focused on slow and steady gradual improvement over time to reach a desired goal, whether it's weight loss, career change, battling addiction or success in relationships. We've been told since toddlerhood that the tortoise beats the hare. But through compelling science and powerful stories, James Fell shows us that the hare has the edge: overwhelming desire can be awakened fast and furiously. When you learn to become attuned to that sensation of sudden awakening, a new path can be followed almost effortlessly because it feels like destiny. Everyone has the ability to experience the lightning strike. **The Holy Sh!t Moment** will teach you how to create a life-changing epiphany and go directly from intention to action.

Shimmer Within: Cognitive-Evolutionary Perspectives on Visionary Beings Bruce Rimell, 2018-01-19 The use of psychedelic drugs and plants is rising, and with it the number of reports narrating encounters with otherworldly visionary beings. Approaches to these experiences have often been literal archetypal or dismissive. Evolutionary psychology and the cognitive science of religion suggest innate and non-imagistic mental foundations for these phenomena, arising from easily triggered evolutionary functions during emotive periods of high cognitive demand. Such functions include agent detection, social intelligence, faculties and metacognition. This wide-ranging book explores how our deepest mental processes predispose us as humans to believe in supernatural agents and presents a new hypothesis of how these same cognitions facilitate the emergence of those agents to become present when psychedelic drugs and plants are ingested. Bruce concludes that visionary beings shimmer within as awe-inspiring products of the mind, an experience which rests at the heart of what it is to be human.
