Methodology

1. Predict what the two teams of officers see that they do not see the same information. Explain what would have been done differently with each team of officers. The teams of officers are then given 10 minutes, time to review the report, time to list the things officers can do more frequently, and discuss how this team can better accomplish what they are doing. Present their list back to the other team for review.
2. Predict a short thought or thought bubble that may run through their head. This can include anything the first team did, anything they might need to do, or anything they may have forgotten. Without any further discussion, draw this thought bubble on the white board for the entire team to see. This thought bubble should then be written down on the white board for review.
3. Predict what the other officers see the police do. This includes what is in the report, but also what they see when the police do this good. Reflect on what actions have had a positive impact from the other team. Note what the other team officers are going to do. Google for these police terms.
4. Predict a short thought or thought bubble that may run through their head. This can include anything the team of officers did, anything they might need to do, or anything they may have forgotten. Without any further discussion, draw this thought bubble on the white board for the other team to review.
