Inspire The Muse 1

Edmund Clarence Stedman

Inspire The Muse 1:

Auto-poetica Darby Lewes, 2006-01-01 The nineteenth century Kunstlerroman self consciously addresses the devices of fiction and in doing so tends toward irony and self reflection and prefigures postmodernism A work of art written about an artist creating a work of art is in a sense a novel in which the author is a character The essays in this collection examine the work of major nineteenth century authors that attempted to merge fiction and reality into a unified whole These novels paved the way for postmodernists who would use the artist novel to self consciously focus on the genre s particular conventions to parody those conventions in order to accentuate the work s fictionality and to expose the oppositions between fiction and reality This collection thus reveals not only material concerns but the underlying anxieties drives and joys which are so profoundly linked to the creative process
