subject Business economics Offline Marketing and Online Marketing grade 1.0 University of Applied Sciences Kln RFH language English abstract The goal of this thesis is to find out if Lemonaid should take the opportunity to expand internationally and which market could be entered Furthermore it will be established how to approach and position Lemonaid in the market and deciding which market entry mode should be used to promises the best possible success This

leads to the central question of this paper How could a best practice strategy for an international market entry of Lemonaid Beverages GmbH look like To answer this question firstly the current situation of Lemonaid is assessed in terms of company resources and size as well as preparedness for internationalisation by using the Nine Strategic Window framework A potential market will be selected after it In the third chapter the market environment the competition in the market and Lemonaid s competitive advantages in the market are analysed For this purpose Porter s Diamond Porter s five forces and the competitive Triangle are used After the assessment and the result of the analysis the 4 P s Product Price Place Promotion are determined based on a comprehensive SWOT analysis Finally the market entry mode is derived in chapter 5 in respective of all the information analyses and data obtained In recent years consumer behaviour in terms of sustainability environmental awareness and social responsibility has changed significantly Consumers become gradually more aware of the consequences of their purchasing behaviour and pay more attention to environmental political and social responsibility It is assumed that this trend will continue even more in the future Based on this development it is expected that consumers demand for sustainable products and especially for products from companies in compliance with these mentioned values will increase strongly One company whose strategy and vision are based on the sale of sustainable eco friendly and fair trade soft drinks is the Lemonaid Beverages GmbH located in Germany The enterprise achieved strong growth rates in sales in the last years and distributes already in some countries outside of Germany The continuing increase in demand of sustainable products offers Lemonaid Beverages GmbH opportunities to enhance their success by expanding into new markets

*Strategic Tools in Dynamic Environments* Cornelius Herzog, 2010-09-13 Bachelor Thesis from the year 2010 in the subject Business economics Business Management Corporate Governance grade 1.2 European Business School International University Schlo Reichartshausen Oestrich Winkel language English abstract The reason why firms succeed or fail is perhaps the central question in strategy stated Porter While traditional strategy approaches can soundly answer this central question in stable environments these approaches are not directly applicable to dynamic environments and there is currently no final and complete answer that determines the causes for a company s failure or success with their strategies in dynamic environments Nevertheless there are many examples of companies that outperform their competitors even in dynamic environments such as Microsoft and Intel and there are many examples of companies that have not been successful at all such as Siemens and BenQ with their mobile phone division One critical point of each strategy is the strategic management process during which the strategy is developed and implemented and during which strategic tools such as the famous SWOT analysis or Porter s five forces are used for example to structure or collect data The purpose of this paper is to explore if strategic tools developed in stable environments are still suitable in dynamic environments or if there are certain constraints Therefore the paper builds on existing literature to develop a thorough understanding of dynamic environments and successful patterns of strategy in dynamic environments and based on this understanding an analysis framework is developed

to analyze several strategic tools The new finding is that the use of strategic tools is still desirable in dynamic environments but that there are limitations that must be considered to obtain useful results when using tools This finding is used to develop a categorization of strategic tools and to propose a new framework for the use of strategic tools in dynamic environments
