The Politics of African-American Education Kenneth J. Meier, Amanda Rutherford, 2016-08-24 The book provides a comprehensive assessment of current African American education policy and its politics **Official Florida Statutes** Florida, 2013 **Informing Social Security's Process for Financial Capability Determination** National Academies of Sciences, Engineering, and Medicine, Institute of Medicine, Board on the Health of Select Populations, Committee to Evaluate the Social Security Administration's Capability Determination Process for Adult Beneficiaries, 2016-05-20 The U S Social Security Administration SSA provides benefits to disabled adults and children offering vital financial support to more than 19 million disabled Americans Of that group approximately 5.5 million have been deemed by virtue of youth or mental or physical impairment incapable of managing or directing the management of their benefits Hence a representative payee has been appointed to receive and disburse SSA payments for these beneficiaries to ensure that their basic needs for shelter food and clothing are met Periodically however concerns have been expressed about the accuracy of the process by which SSA determines whether beneficiaries are capable of managing their benefits with some evidence suggesting that underdetection of incapable recipients may be a particular problem The importance of creating as accurate a process as possible for incapability determinations is underscored by the consequences of incorrectly identifying recipients either as incapable when they can manage their benefits or as capable when they cannot Failure to identify beneficiaries who are incapable of managing their funds means abandoning a vulnerable population to potential homelessness hunger and disease Informing Social Security's Process for Financial Capability Determination considers capability determination processes used by other similar benefit programs abilities required to manage and direct the management of benefits and effective methods and measures for assessing capability This report evaluates SSA's capability determination process for adult beneficiaries and provides recommendations for improving the accuracy and efficiency of the agency's policy and procedures for making these determinations Journal of the Senate, State of Florida Florida. Legislature. Senate, 2013 *Expertise* Jessica Gerrard, Jessica Holloway, 2023-01-26 This book offers an important and timely critique of expertise showing how it is a keyword shaped by social historical and political debates about what counts as knowledge and truth and who counts as experts Using teacher expertise as an illustrative case Jessica Gerrard and Jessica Holloway reflect on recent events including COVID 19 and the climate crisis to examine how expertise is never neutral objective or fixed They argue that getting political is not just an inevitable part of teacher expertise but a necessary basis of any claim to it Across the chapters Expertise explores how expertise is socially constructed in relation to governance uses of data and evidence understandings of ignorance and the unknown and ultimately power Using contemporary and historical examples from international contexts the authors address the political positioning of expertise and how this creates boundaries between who is an expert and who is not and what is and is not expertise Gerrard and Holloway argue that ongoing policy debates about teacher expertise

cannot be resolved by neutral definitions of good teaching Rather expertise is unavoidably political in its expression

Predicting FCAT Science Scores 2007-08. Research Brief Terry Froman, Vilma Rubiera, 2007 Although students have been taking the Florida Comprehensive Assessment Test FCAT Science test for a few

years the State included the performance on the Science test in the school grade calculations for the first time in 2006 07 Although no official guidelines exist presently the Science scores may also be incorporated in the NCLB Adequately Yearly Progress requirements in the near future With the growing importance of the Science test it becomes increasingly desirable to have some way of predicting the performance of students In other FCAT testing areas prediction formulas and cutoff scores for success have been developed by this office and made available to schools for several years However because the Science test is relatively new and because it is administered in only Grades 5 8 and 11 prediction for this test must proceed along different lines This paper presents the results of an analysis directed toward predicting students Science scores based on their performance on the FCAT Mathematics test of the previous year For the 2006 07 edition of this report see ED538076
