## Kuta Square Roots:

**Bali's silent crisis** Jeff Lewis, Belinda Lewis, 2009-04-16 Bali and Balinese culture have become central to western imaginings of the east. Along with its natural beauty and tropical sensuality Bali's rich and complex culture has proved intensely alluring for western artists, scholars, and travelers. However, as this aesthetic imagining and desire for beauty have evolved into a mass tourism industry, the island people and their culture have experienced radical and rapid transformation. While many in the international community were stunned by the horror of the militant bombings in 2002 and 2005, these attacks were merely the apex of a profound and ongoing crisis which resonates through the period of Bali's modernization and engagement with the global economy of pleasure. *Bali's Silent Crisis* examines and elucidates the complex cultural and political environment of contemporary Bali. The book explains the conditions of crisis in Bali in terms of a powerful collision of cultural elements and trends focusing specifically on the double matrix of desire and violence that has characterized Bali's recent past. Moving beyond a simple opposition between tradition and the modern, this book reveals a society that is struggling to reconcile its own profound aesthetic and sense of historical identity with the intense agonisms that are generated through rapid social and cultural change. Through its thematic approach, *Bali's Silent Crisis* presents an image of community trauma, creative resilience, and pluralization. The book records the challenges and horrors associated with transition as well as the formidable beauty that remains intrinsic to the island's sense of cultural destiny.

**Urbanism, Landscape, and Ecology** Archana Sharma, 2022-04-11 Classic Indian texts and Vaastupurusha Mandala are not often discussed in the western discourse on urbanism even while much of these predate the commonly taught European writings. This book sheds light on some of those forgotten concepts thus making the lesser discussed classic Indian town organization ideas accessible to architecture, landscape, and urban planning students worldwide. The resonance of these concepts in present times are reviewed through case studies of select Hindu temple towns in India. Furthermore, the author underscores the formal abstraction of the classic Indian Mandala and transplants the discourse from sociology to socio-ecologically adept trans-disciplinary design thinking. The creative interpretations offer a premise to start revising classic models for current practice to influence the urbanism and ecology of a place in accordance with the changing climate.

Liffman,2023-02-07 The Huichol Wixarika people claim a vast expanse of Mexico's western Sierra Madre and northern highlands as a territory called kiekari which includes parts of the states of Nayarit Jalisco Durango Zacatecas and San Luis Potos. This territory forms the heart of their economic and spiritual lives. But indigenous land struggle is a central fact of Mexican history and in this fascinating new work Paul Liffman expands our understanding of it. Drawing on contemporary anthropological theory he explains how Huichols assert their sovereign rights to collectively own the 1 500 square miles they inhabit and to practice rituals across the 35 000 square miles where their access is challenged. Liffman places current access claims in historical perspective tracing Huichol communities long term efforts to redress the inequitable access to land and other resources that their neighbors and the state have imposed on them. Liffman writes that the cultural grounds for territorial claims were what the people I wanted to study wanted me to work on. Based on six years of collaboration with a land rights organization interviews and participant observation in meetings ceremonies and extended stays on remote ranches as Huichol Territory and the Mexican Nation analyzes the sites where people define Huichol territory. The book's innovative structure echoes Huichols own approach to knowledge and examines the nation and state not just the community. Liffman's local regional and national perspective informs every chapter and expands the toolkit for researchers working with indigenous communities. By describing Huichols ceremonially based placemaking to build a theory of historical territoriality he raises provocative questions about what place means for native peoples worldwide      **Selections from the Records of the Government of India, Revenue and Agricultural Department: 1888-89** Sir George Watt,1889      *Gazetteer of the Bombay Presidency: Tha'na (2 pts.) ,1882 Catalog of Copyright Entries* Library of Congress.
