To avoid damaging the core pulser generator while removing the catheter, remove the left and right pulser generators from the cylinder first.

Recommends the following books and articles to read:

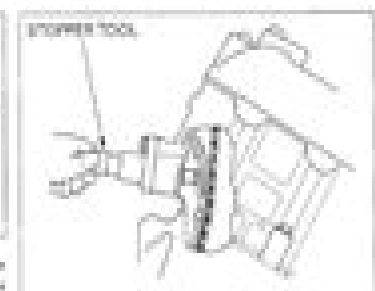

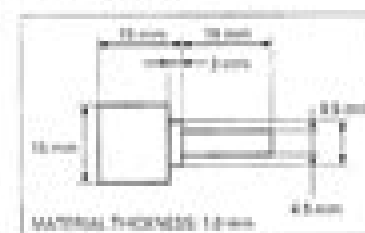

Turn the carburettor clockwise, align the "T" mark on the ignition pulse generator rotor with the index mark on the right crankcase cover.
Make sure the fuel system is at FDC / Full Dead Center on the compression stroke.

Remove the tape when necessary after testing, but not during testing.

Turn the lampshade that sits fully in the shade and secure it using the zipper tool.
The tool can easily be made from a piece of wood (half-inch piece of wood)

It is well documented that the use of a single point of contact for all customer inquiries can improve the customer experience. This is because it allows the customer to speak to a single representative who can provide a consistent level of service and ensure that the customer's needs are met. This is a key principle of the "single point of contact" model, which is a common approach in many industries.
