Anarchists in the Academy Dani Spinosa, 2022-08-29 Dani Spinosa takes up anarchism's power as a cultural and artistic ideology rather than as a political philosophy with a persistent emphasis on the common. She demonstrates how postanarchism offers a useful theoretical context for poetry that is not explicitly political specifically for the contemporary experimental poem with its characteristic challenges to subjectivity representation authorial power and conventional constructions of the reader-text relationship. Her case studies of sixteen texts make a bold move toward politicizing readers and imbuing literary theory with an activist praxis a sharp hope. This is a provocative volume for those interested in contemporary poetics experimental literatures and the digital humanities. Case Studies Jim Andrews Christian B. K. Social Inclusion Tactics for People With Intellectual and Developmental Disabilities Chandan, Harish Chandra, 2024-10-24 An intellectual and developmental disability (IDD) is a lifelong condition that limits intelligence learning and daily life skills. People with IDs are often not integrated in mainstream society. They have fewer opportunities to participate in recreational activities hindering their social inclusion which has the potential to diminish quality of life. As a compassionate society we must understand how people with IDs can be socially integrated to ensure their mental health and to maximize their potential so that they can contribute to society in their unique way. Social Inclusion Tactics for People With Intellectual and Developmental Disabilities promotes the social integration of people with IDs and aims to increase awareness about the lack of opportunities for socialization for people with IDs. Covering topics such as autism children with disabilities and societal inclusion this book is a valuable resource for organizations policymakers academicians researchers sociologists and more Educational Times and Journal of the College of Preceptors, 1911

Pattern and Chaos in Art, Science and Everyday Life Sarah Horton, Victoria Mitchell, 2023-12-13 This collection explores critical and visual practices through the lens of interactions and intersections between pattern and chaos. The dynamic of the inter-relationship between pattern and chaos is such as to challenge disciplinary boundaries critical frameworks and modes of understanding perception and communication often referencing the in-between territory of art and science through experimentation and visual scrutiny. A territory of pattern chaos or chaos pattern begins to unfold. Drawing upon fields such as visual culture sociology physics neurobiology linguistics or critical theory for example contributors have experimented with pattern and or chaos related forms processes materials sounds and language or have reflected on the work of other artists scientists and scholars. Diagrams tessellations dust knots mazes folds creases flux virus fire and flow are indicative of processes through which pattern and chaos are addressed. The contributions are organized into clusters of subjects which reflect the interdisciplinary terrain through a robust yet also experimental
