Nan Marshall,2013-12-04 At first glance the world of the twenty first century and the world of our first president could hardly be more different Modern life is filled with distractions from technology hectic schedules and multitasking However George Washington lived through a time of great turmoil As a general and politician he was subject to stressors to an extreme that most of us will never know Graciousness and dignity however were his hallmarks and he lived his life by the code defined in The Rules of Civility People make great efforts to be civil While compassion and concern for the well being of others can be lost beneath the shuffle of our daily lives it still exists This practical and elegant guide offers valuable lessons for inner tranquility such as the difference between working hard and always being in a hurry as well as a guide for social situations including the importance of quality time with others table manners romantic propriety and congenial communication While technology has moved forward the question What would George Washington do has become more relevant than ever *People v.
