Assessment of Nontimber Forest Products in the United States Under Changing Conditions James L Chamberlain,2018-08-24 This Non timber Forest Products assessment serves as a baseline science synthesis and provides information for managing non timber forest resources in the United States This report provides technical input to the 2017 National Climate Assessment and closely follows the Intergovernmental Panel on Climate Change IPCC process You will find an overview of the findings and interrelated discussions covering aspects of biophysical social cultural economic and policy dimensions of non timber forest products and the implications of the effects of climatic variabilities and change for them Appendix information summarizes non timber forest products relative to geographic regions across the country Related products Other products produced by the U S Forest Service Department of Agriculture USDA can be found here <https://bookstore.gpo.gov/agency/us-forest-service/find-more-federal-documents-relating-to-climate-weather-resources> here <https://bookstore.gpo.gov/catalog/weather/climate> Non-Timber Forest Products Marla R Emery,Rebecca J McLain,2001-09-18 Balance the culture of wildcrafting with the demands of sustainable forest management This comprehensive book documents the current use research and policy concerns relating to harvesting non timber forest products NTFPs It provides a state of the art review of historical and contemporary wildcrafting ongoing research on economically useful forest products and sociopolitical and environmental considerations for NTFP management The implications of harvesting NTFPs are usually considered in the context of the Third World but this unique book offers an analysis of current conditions in North America and integrates the historical social ecological and policy aspects of NTFP use It addresses the issues that arise when the primeval practice of gathering wild plants fungi leaves and bark occurs in a post industrial world Non Timber Forest Products Medicinal Herbs Fungi Edible Fruits and Nuts and Others **Journal of Non-timber Forest Products** ,1997

*Nontimber Forest Products in the United States* Eric T. Jones,Rebecca Jean McLain,James F. Weigand,2002 A quiet revolution is taking place in America's forests Once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As the first extensive national overview of NTFP policy and management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and

discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests

*Journal of Non-timber Forest Products* ,2000      [Ecological Sustainability for Non-timber Forest Products](#) Charlie M. Shackleton,Ashok K. Pandey,Tamara Ticktin,2015-03-24 There is growing knowledge about and appreciation of the importance of Non timber Forest Products NTFPs to rural livelihoods in developing countries and to a lesser extent developed countries However there is also an assumption on the part of policy makers that any harvesting of wild animal or plant products from the forests and other natural and modified ecosystems must be detrimental to the long term viability of target populations and species This book challenges this idea and shows that while examples of such negative impacts certainly exist there are also many examples of sustainable harvesting systems for NTFPs The chapters review and present coherent and scientifically sound information and case studies on the ecologically sustainable use of NTFPs They also outline a general interdisciplinary approach for assessing the sustainability of NTFP harvesting systems at different scales A wide range of case studies is included from Africa Asia and South America using plant and animal products for food crafts textiles medicines and cosmetics
