Automated Secure Computing for Next-Generation Systems Amit Kumar Tyagi, 2023-12-19
AUTOMATED SECURE COMPUTING FOR NEXT GENERATION SYSTEMS This book provides cutting edge chapters on machine empowered solutions for next generation systems for today's society. Security is always a primary concern for each application and sector. In the last decade many techniques and frameworks have been suggested to improve security data information and network. Due to rapid improvements in industry automation however systems need to be secured more quickly and efficiently. It is important to explore the best ways to incorporate the suggested solutions to improve their accuracy while reducing their learning cost. During implementation the most difficult challenge is determining how to exploit AI and ML algorithms for improved safe service computation while maintaining the user's privacy. The robustness of AI and deep learning as well as the reliability and privacy of data is an important part of modern computing. It is essential to determine the security issues of using AI to protect systems or ML based automated intelligent systems. To enforce them in reality privacy would have to be maintained throughout the implementation process. This book presents groundbreaking applications related to artificial intelligence and machine learning for more stable and privacy focused computing. By reflecting on the role of machine learning in information cyber and data security. *Automated Secure Computing for Next Generation Systems* outlines recent developments in the security domain with artificial intelligence machine learning and privacy preserving methods and strategies. To make computation more secure and confidential the book provides ways to experiment conceptualize and theorize about issues that include AI and machine learning for improved security and preserve privacy in next generation based automated and intelligent systems. Hence this book provides a detailed description of the role of AI ML etc in automated and intelligent systems used for solving critical issues in various sectors of modern society.
