Vakoch, 2012-08-09 After uncovering the oppressive dichotomies of male/female and nature/culture that underlie contemporary environmental problems, Feminist Ecocriticism focuses specifically on emancipatory strategies employed by ecofeminist literary critics as antidotes asking what our lives might be like as those strategies become increasingly successful in overcoming oppression. Thus ecofeminism is not limited to the critique of literature but also helps identify and articulate liberatory ideals that can be actualized in the real world in the process of transforming everyday life. Providing an alternative to rugged individualism, for example, ecofeminist literature promotes a more fulfilling sense of interrelationship with both community and the land. In the process of exploring literature from ecofeminist perspectives, the book reveals strategies of emancipation that have already begun to give rise to more hopeful ecological narratives
