*Visual Writing* Alex Baratta, 2010-07-12 Considering the fact that the academic essay continues to be widely used as an assessment tool within education there is a need for students to develop their skills in this area However it is often the case that students perceive instruction in academic writing if it is offered at all as boring This book addresses these two issues First the book can be used by students themselves even in the absence of academic writing classes as a self help guide from which they can develop their knowledge of academic writing and subsequent proficiency Second by discussing the components of academic writing in terms such as film which are familiar to today s generation students are enabled to relate to the material better and see what might have been perceived as dull from a brand new perspective Visual learners in particular will enjoy the analogous

link between films and essays and students today are arguably more visually literate than previous generations being exposed to visuals on a daily basis through text message iconography computer games and the Internet The visual instruction provided in turn helps to facilitate mental visuals in students minds from which their knowledge of essay writing can start to develop
