Juniper Junos Network Associate - Student Guide Maher Haddad, 2024-02-15. Juniper Junos is one of the best products to use it on your network. It is mainly used by ISPs networks as well as Enterprise networks and it is known by its great stability and performance. Juniper is considered from the top level appliances and in direct competition with other great brands such as Cisco. However, configuring a Juniper appliance is always a challenge due to the lack of resources available on the web, such as books, video courses and due to its complexity when it comes to the command line. For this reason, I have decided to write this book to take you from scratch to the associate level using Juniper Junos. In this book, I will be doing a lot of laboratories showing you the way you can configure the Juniper devices using the command line. I hope that you will enjoy reading this book and if you have any question or justification, you can just drop me an email to info@mynetworktraining.com.
