

MANUAL HANDLING ASSESSMENT FORM

Ref No: _____ Task: _____

Questions To Consider (If the answer to a question is YES, place a tick against it, then consider level of risk)			Level of Risk			Possible Remedial Action (Make rough notes in this column in preparation for completing M Handling Controls Form)
	No	Yes	L	M	H	
The Tasks - do they involve:						
• holding loads away from the trunk?						
• twisting?						
• stooping?						
• reaching upwards?						
• large vertical movements?						
• long carrying distances?						
• strenuous pushing or pulling?						
• unpredictable movement of loads?						
• repetitive handling?						
• insufficient rest or recovery?						
• a workrate imposed by a process?						
The Loads - are they:						
• heavy?						
• bulky/unwieldy?						
• difficult to grasp?						
• unstable /unpredictable?						
• intrinsically harmful (e.g. sharp/hot)?						
The Working Environment - are there:						
• constraints on posture?						
• poor floors						
• variations in levels?						
• hot/cold/humid conditions?						
• strong air currents						
• poor lighting conditions?						
Individual Capability - does the job:						
• require unusual capability?						
• hazard those with a health problem?						
• hazard those who are pregnant?						
• call for special information/training?						
Other Factors:						
• Is movement or posture hindered by clothing or personal protective equipment?						
Deciding the level of risk requires a qualitative judgement. When completed, attach this worksheet to the Manual Handling Controls Form (F009B).

Manual Handling Assessment Form:

Introduction to Health and Safety in Construction Phil Hughes, Ed Ferrett, 2007-02-19 Introduction to Health and Safety in Construction covers the specific challenges faced by the construction industry as well as the basics of occupational safety and health in general. The coverage of this book has been directly matched to the Certificate course in Construction Safety and Health from NEBOSH. However, the comprehensive coverage of health and safety topics in a construction context make it relevant for other courses in Construction Design and Management Construction Safety and Health and the Built Environment both in the UK and overseas as well as for construction professionals who are looking for an introduction to health and safety which addresses the specific problems encountered in their industry. In its second edition the book has been updated to incorporate changes in legislation regarding Noise Vibration COSHH Work at Height Fire Safety Construction Design and Management Asbestos. The text is highly illustrated in full colour, easy to read and includes self assessment questions taken directly from NEBOSH examinations. A chapter on study skills offers support for professionals returning to study. The text is also supported with checklists, report forms and record sheets making it a valuable reference tool for construction managers, supervisors, designers, building and civil engineers to consult on the day to day issues of health and safety.

Recording in social work Liz O'Rourke, 2010-05-05 Recording is regarded by most social workers as a necessary evil. The research from which this book arises found that recording is a highly complex and demanding aspect of professional practice. Why has such a critical activity received so little attention despite the concerns over social work records identified with successive inquiries into tragic deaths? This highly topical book explores the often conflicting demands on social workers as they record information on the case files and will stimulate a long overdue debate as to how to achieve more effective recording in social work.

Dental Practice Health Check Lesley Bailey, Suzanne Mitchell, 2018-05-08 Dental Practice Health Check helps dental practice owners improve their business. It is concise, practical and ideal for day to day reference. Sound evidence based principles are offered to assist practice owners in becoming better people managers, drive revenue and profitability through marketing and customer service and ensure the business has robust systems and procedures to support its operation. By encouraging practice owners to step back and review their current business practices, the book examines ways of making the dental business more rewarding in the long run, maximising opportunities and supporting revenue and profitability. Dental Practice Health Check is highly recommended for principal dentists and dental practice managers including those undertaking training. Associate dentists interested in purchasing or starting their own practice will find the information enlightening as will accountants and legal firms with dental clients as well as banks and other financial institutions.

Principles of Construction Safety Allan St John Holt, 2008-04-15 The construction industry has not had a good record on health and safety and faces tough legal and financial penalties for breaches of the law. This book provides a unique resource for all those who construct or procure the construction of projects of all sizes and in all countries and for

clients who need to keep abreast of their own and their contractors responsibilities It gives practical guidance on best practice including measuring performance and recording information developing a safety policy and method statements assessing risk training and understanding people the basics of the construction environment interface The book addresses several topics not found in other reference works discussing techniques of health and safety and basic environmental management as applied to the industry It uniquely provides 50 quick reference guides setting out solutions to common problems These include falls manual and mechanical handling work with asbestos and noise It also summarises the main UK legal requirements on construction safety and health and includes a number of useful checklists and model forms Written by a very experienced health and safety practitioner who is also author of the highly successful IOSH book Principles of Health and Safety at Work this book will be welcomed by all responsible for health and safety It will also provide an excellent text for the NEBOSH National Examination Board in Occupational Safety and Health Construction Safety and Health national certificate

Evidence-Based Practice - A Critical Discussion of Occupational Therapy Practice with a Focus on Assessments Linda Mathews, 2011-12-22 Essay from the year 2008 in the subject English Miscellaneous grade 77% London South Bank University UK 29 entries in the bibliography language English abstract Placement Setting The team is based in an NHS teaching PCT Practice takes place in the community and or in the hospital gym or therapy rooms Overarching philosophy of care NHS frameworks standards The overarching philosophy of care is based on the Social Model of Disability Oliver 1983 and the empowerment of the client in enhancing his her level of independence which may consequently prevent hospital admission A key paper used in this setting is the NSF for Older People Department of Health 2001 particularly its second standard client centred care Client population health needs age range ethnicity service user profile The profile of a typical service user describes an adult experiencing a long term neurological condition Health needs vary but typically include the need for adaptive equipment in order to improve self care skills
