*Country Reports on Human Rights Practices For 2006, Vol. 2, April 2008, 110-2 Joint Committee Print, S. Prt. 110-40, \**  
2008     *The Political Writings of Alexander Hamilton: Volume 2, 1789-1804* Alexander Hamilton,2017-11-30 Volume II 1789  
1884 Few of America's founders influenced its political system more than Alexander Hamilton. He played a leading role in writing and ratifying the Constitution, was de facto leader of one of America's first two political parties, and was influential in interpreting the scope of the national government's constitutional powers. This comprehensive collection provides Hamilton's most enduringly important political writings covering his entire public career from 1775 to his death in 1804. Readers are introduced to Hamilton in his own words as defender of the American cause, as an early proponent of a stronger national government as a founder and protector of the American Constitution, as the nation's first secretary of the treasury, as President George Washington's trusted foreign policy advisor, and as a leader of the Federalist Party. Presented in a convenient two volume set, this book provides a unique insight into the political ideas of one of America's leading founders, a must have reference source.

*Death, Society, and Human Experience* Robert Kastenbaum, Christopher M. Moreman,2024-03-28 The 13th edition of *Death, Society, and Human Experience* provides a panoramic overview of the ways that we are touched by death and dying, both as individuals and as members of society. A landmark text in the field, the authors draw on contributions from the social and behavioral sciences as well as the humanities, including perspectives offered through history, philosophy, religion, literature, and the arts, to provide thorough coverage and understanding of topics associated with the end of life and death and dying. By approaching the subject from multiple angles, the authors explain the various ways that individual cultural and societal attitudes influence both how and when we die and how we live and deal with the knowledge of death and loss. Originally written by Robert Kastenbaum, a renowned scholar who developed one of the world's first death education courses, Christopher M. Moreman, who has worked in the field of death studies for two decades, has updated this edition. In addition to infusing his close areas of focus, both in afterlife beliefs and experiences, and how these might affect how people live their lives, he's woven in new coverage of current affairs, including the impact of COVID-19 on experiences of death, bereavement, mourning, and more. Expanded legalization of physician assisted dying in the United States and several countries, changes in bereavement rituals and traditions stemming from technology use and social media. With additional content and classroom extensions available online, *Death, Society, and Human Experience* remains a thoughtful, exploratory, and impressively comprehensive overview for undergraduate and graduate courses in death, dying, and bereavement.
