

The background of the cover is a photograph of an ice hockey rink. In the upper portion, the lower legs and skis of several players are visible as they move across the ice. The puck is on the ice near the center. The lower portion of the cover features a close-up, artistic shot of three shirtless men. One man is in the center, seen from the back, wearing a white towel or cloth draped over his waist. He is being embraced from behind by two other men, whose muscular torsos and arms are visible. The lighting is dramatic, highlighting the contours of the men's bodies.

Beckett Translating/translating Beckett Alan Warren Friedman, Charles Rossman, Dina Sherzer, 1987 Up to now Samuel Beckett has been considered largely as a commentator on the human condition and on the angst of our time and as a novelist and a playwright who undermines and manipulates the metaphysical assumptions and conventions that underlie language and representation This book offers a new perspective The contributors all outstanding Beckett scholars emphasize three significant aspects of Beckett's career that have been acknowledged but given insufficient consideration Beckett is a translator an experimenter with form and expression in two languages simultaneously Beckett is a multimedia creator who has worked with several kinetic verbal and visual possibilities and resources Beckett has inspired experimentation and creativity in others Thus translation is viewed in this book not as a secondary production but rather as a dynamic process that involves adaptations interpretations transformations and transpositions all activities requiring strategies and techniques for transcoding on the part of the translator The scholars represented in this book examine both what is translated and how it is translated with the result that a new set of questions about Beckett's works is raised and the answers point to further avenues of research
