Check that your option is securely connected to the option (ADF/TPU) connector at the back of the scanner. PageManager to scan your image automatically and send it directly to another application or a peripheral device, such as a printer.

Transporting the Scanner

When you transport the scanner a long distance or store it for an extended time, follow the steps below to secure the carriage.

1. Make sure the transportation lock on the back of the scanner is in the UNLOCK position.

2. Locate the SCSI ID rotary switch on the back of the scanner. Align the dot on the rotary switch with the asterisk (*).
3. If you're using a transparency unit or automatic document feeder, remove it and replace the scanner cover.
4. Turn on the scanner and wait until the carriage moves to the home position as shown. Then turn off the scanner.
5. Slide the transportation lock at the back of the scanner to the LOCK position.

If the carriage does not automatically return to the home position, slowly raise the front of the scanner and hold it up until the carriage comes to rest in the home position. Then slide the transportation lock to the LOCK position.
