## MAIN IDEA

After World War II, Americans adjusted to new economic opportunities and harsh social tensions.

## WHY IT MATTERS NOW

Economic opportunities afforded by World War II led to a more diverse middle class in the United States.

## One American's Story

The writer and poet Maya Angelou was a teenager living in San Francisco when the United States got involved in World War II. The first change she noticed was the disappearance of the city's Japanese population. The second change was an influx of workers, including many African Americans, from the South. San Franciscans, she noted, maintained that there was no racism in their city by the bay. But Angelou knew differently.

### A PERSONAL VOICE MAYA ANGELOU

"A story went the rounds about a San Franciscan white matron who refused to sit beside a Negro child on the streetcar, even after he made room for her on the seat. Her explanation was that she would not sit beside a draft dodger who was a Negro as well. She added that the least he could do was fight for his country the way her son was fighting on her Jima. The story said that the man patted his body away from the window to show an armless sleeve. He said quietly and with great dignity, 'Then ask your son to look around for my arm, which I left over there.'"

—*I Know Why the Caged Bird Sings*

At the end of the war, returning veterans—even those who weren't disabled—had to begin dealing with the very real issues of reentry and adjustment to a society that offered many opportunities but still had many unsolved problems.

## Opportunity and Adjustment

In contrast to the Great Depression, World War II was a time of opportunity for millions of Americans. Jobs abounded, and despite rationing and shortages, people had money to spend. At the end of World War II, the nation emerged as the world's dominant economic and military power.
