The foreign exchange (Currency Forex or FX) market is the largest trading market in the world, exceeding 3.2 trillion every single day. Essentially, there are four variables involved: currencies, exchange rate, time, and interest rate. The relationships of these variables create opportunities for small investors to obtain investment returns that are unheard of in the traditional investment world. Currency investments can provide you with a very high and secure rate of return in some cases as high as 12 percent, 18 percent, 24 percent, or even 1,000 percent every year. This all sounds great, but what is the catch? There really is none. You just have to know what you are doing. This groundbreaking and exhaustively researched new book will teach you everything you need to know to get you started. In no time, you will be generating high investment returns with low risk from start to finish.
