George Eliot's Intellectual Life Avrom Fleishman,2010-02-18 It is well known that George Eliot's intelligence and her wide knowledge of literature history philosophy and religion shaped her fiction but until now no study has followed the development of her thinking through her whole career This intellectual biography traces the course of that development from her initial Christian culture through her loss of faith and working out of a humanistic and cautiously progressive world view to the thought provoking achievements of her novels It focuses on her responses to her reading in her essays reviews and letters as well as in the historical pictures of Romola the political implications of Felix Holt the comprehensive view of English society in Middlemarch and the visionary account of personal inspiration in Daniel Deronda This portrait of a major Victorian intellectual is an important addition to our understanding of Eliot's mind and works as well as of her place in nineteenth century British culture

Foreign Policy and Congress Marie T. Henehan,2010-06-02 In the traditional view of foreign policy making in the United States the President is considered the primary authority and Congress is seen as playing a subsidiary role Marie T Henehan looks at the effects of events in the international system on both the content of foreign policy and what actions Congress takes on foreign policy Henehan argues that the only way to understand the way congressional behavior varies over time is by looking at the rise and resolution of critical issues in foreign policy which in turn have their origin in the international system When a critical foreign policy issue arises congressional activity and attempts to influence foreign policy increase Once the debate is resolved and one side wins a consensus emerges and Congress settles into a more passive role Using a data set consisting of all roll call votes on foreign policy issues taken by the Senate from 1897 to 1984 to generate indicators of Congressional behavior together with the rise and fall of critical issues in international relations Henehan is able to develop a more nuanced understanding of Congress's role in foreign policy making

over time In recent years political scientists have begun to consider the impact of the international system on domestic policy Part of the difficulty of some of this work as well as work on Congress's role in foreign policy is that it has been limited in terms of time and the number of events the analysis considered depending on case studies This book offers a systematic consideration of the effects of international events on domestic politics crossing many different kinds of international activity and provides a unique longitudinal view of Congressional action on foreign policy This book will be of interest to scholars of international relations American foreign policy making and Congress Marie T Henehan is Assistant Professor of Political Science Vanderbilt University Hollywood War Films, 1937-1945 Michael S. Shull, David Edward Wilt, 2015-09-03 From 1937 through 1945 Hollywood produced over 1 000 films relating to the war This enormous and exhaustive reference work first analyzes the war films as sociopolitical documents Part one entitled The Crisis Abroad 1937-1941 focuses on movies that reflected America's increasing uneasiness Part two Waging War 1942-1945 reveals that many movies made from 1942 through 1945 included at least some allusion to World War II Holt People, Places, and Change Robert J.
