*Language Education in the School Curriculum* Ken Cruickshank, Stephen Black, Honglin Chen, Linda Tsung, Jan Wright, 2020-05-14 There is widespread concern in all English speaking countries at the rapid decline in study of languages The promise of languages for all in the UK and North America in the 1970s marked a shift from languages as lite subjects for the privileged few but this promise has not been fulfilled This book explores the reasons for and solutions to this decline More importantly it looks at how these trends have been reversed in successful school programs and the implications of this for language education policy makers The study draws on an analysis of data from 600 primary secondary and community languages schools over six years and from detailed case studies in a representative sample of 45 successful schools The book proposes a range of strategies to address the decline from engaging classroom learning assessment outcomes and embedding languages as central in school curriculum on the one level to a mix of incentives and mandation for language study especially at upper secondary school level The authors explore the impact of learning languages on the thinking educational experiences and outcomes of young people across a range of ethnic backgrounds and socioeconomic statuses They show the importance of having equal access to languages study in a world where young people will have increasingly more diverse working lives and argue that the gap in languages between policy and uptake is really a gap in the thinking of policy makers and government

*Popular Music, Cultural Politics and Music Education in China* Wai-Chung Ho, 2016-12-08 While attention has been paid to various aspects of music education in China to date no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China Before the implementation of the new curriculum reforms in China at the beginning of the twenty first century there was neither Chinese nor Western popular music in textbook materials Popular culture had long been prohibited in school music education by China s strong revolutionary orientation which feared spiritual pollution by Western cultures However since the early twenty first century education reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum In relation to this topic this book analyses how social transformation and cultural politics have affected

community relations and the transmission of popular music through school music education Ho presents music and music education as sociopolitical constructions of nationalism and globalization Moreover how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education as well as the reformation of music education in mainland China is discussed Based on the perspectives of school music teachers and students the findings of the empirical studies in this book address the power and potential use of popular music in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland

Beyond Age Effects in Instructional L2 Learning Simone E. Pfenninger, David Singleton, 2017-04-21 This book constitutes a holistic study of how and why late starters surpass early starters in comparable instructional settings Combining advanced quantitative methods with individual level qualitative data it examines the role of age of onset in the context of the Swiss multilingual educational system and focuses on performance at the beginning and end of secondary school thereby offering a long term view of the teenage experience of foreign language learning The study scrutinised factors that seem to prevent young starters from profiting from their extended learning period and investigated the mechanisms that enable late beginners to catch up with early beginners relatively quickly Taking account of contextual factors individual socio affective factors and instructional factors within a single longitudinal study the book makes a convincing case that age of onset is not only of minimal relevance for many aspects of instructed language acquisition but that in this context for a number of reasons a later onset can be beneficial
