*Xi Jinping's Quest for a Sinocentric Asia, 2013-2024* Gilbert Rozman, Yun Sun, Danielle F. S. Cohen, 2025-04-15

Recognizing Sinocentrism as the core motivation behind Xi Jinping's vision for the reconstruction of Asia, Rozman, Sun, and Cohen present a comprehensive and updated analysis of Chinese foreign policy toward Asia, uncovering the deep-seated calculations behind Xi's policies across four arenas of distinct interest in the last decade. The book employs strategic thinking and Chinese language resources to examine multiple areas of China's foreign policy, gaining insight into policy development and its wider consequences for Asia. It critically examines numerous facets of China's foreign policy, including Chinese perceptions of the US role in the Indo-Pacific strategic thinking toward Northeast Asia, policies toward India, Southeast Asia, and Australia, and the approach to Central Asia to comprehensively ascertain Xi's strategies and motivations. By examining the reticence of Chinese spokespersons and publications to identify the objectives of China's policies over a decade, the book interrogates the predominant motivation of Xi's Sinocentrism in creating a dominant civilization insistent on subservience within its sphere. The authors provide a timely assessment of China's grand strategy and Xi Jinping's ambitious efforts to build a Sinocentric axis in Asia and a valuable resource for students, academics, policymakers, and researchers of Asian Studies, International Relations, Asian security, Xi Jinping thought, Sinocentrism, and Chinese foreign policy.

**Democratizing Legal Services** Laura Snyder, 2016-10-11 We live in a law thick world. For individuals and organizations in both the public and private sectors, navigating the large number of complex laws, rules, institutions, and procedures that pervade American life is virtually impossible without some assistance. Some argue that there are too many lawyers. Others argue that the unmet need for legal services is so high that it constitutes a human rights crisis. This book exposes why it is easy to access legal services for some while it is virtually impossible for others, and why some lawyers have successful careers but others cannot. This book argues that the problems plaguing legal services in the US can be only be addressed by a radical overhaul of the rules that govern how legal services may be delivered as well as radical changes to who exercises the power to make those rules. Through interviews with those with experience with alternative legal service providers, this book exposes the formidable obstacles that exist along the path to those changes as well as the opportunities that await.
