**French Connection Airshow (English version)** François Dabin, 2014-09-25 May 27 2000 the mythical aerobatic couple known in the U S as the French Connection Airshow disappeared in flight Little known in France Daniel H ligoin and Montaine Mallet aboard two French planes resonated with North America crowds attending the many shows they performed in for almost 27 years They were the only couple in the world to achieve a genuine aerial ballet with music or poetry Fran ois Dabin was the instructor who took Montaine on her first flight which led to her Private Pilot Airplane rating before she met Daniel H ligoin Her history and their destiny all have common dreams and tragedy After several stories about general aviation Fran ois Dabin had to trace the extraordinary lives of these minstrels of the sky he knew well *French*

*Connections in the English Renaissance* Catherine Gimelli Martin, Hassan Melehy, 2016-04-15 The study of literature still tends to be nation based even when direct evidence contradicts longstanding notions of an autonomous literary canon In a time when current events make inevitable the acceptance of a global perspective the essays in this volume suggest a corrective to such scholarly limitations the contributors offer alternatives to received notions of influence and the more or less linear transmission of translatio studii demonstrating that they no longer provide adequate explanations for the interactions among the various literary canons of the Renaissance Offering texts on a variety of aspects of the Anglo French Renaissance instead of concentrating on one set of borrowings or phenomena this collection points to new configurations of the relationships among national literatures Contributors address specific borrowings rewritings and appropriations of French writing by English authors in fields ranging from lyric poetry to epic poetry to drama to political treatise The bibliography presents a comprehensive list of publications on French connections in the English Renaissance from 1902 to the present day

**New Orleans in the Atlantic World** William Boelhower, 2013-09-13 The thematic project New Orleans in the Atlantic World was planned immediately after hurricane Katrina and focuses on what meteorologists have always known the city s identity and destiny belong to the broader Caribbean and Atlantic worlds as perhaps no other American city does Balanced precariously between land and sea the city s geohistory has always interwoven diverse cultures languages peoples and economies Only with the rise of the new Atlantic Studies matrix however have scholars been able to fully appreciate this complex history from a multi disciplinary multilingual and multi scaled perspectivism In this book historians geographers anthropologists and cultural studies scholars bring to light the atlanticist vocation of New Orleans and in doing so they also help to define the new field of Atlantic Studies This book was published as a special issue of Atlantic Studies
