Camille (📖📖) Alexandre Dumas (fils),2011-10-15 pubOne info present you this new edition In my opinion it is impossible to create characters until one has spent a long time in studying men as it is impossible to speak a language until it has been seriously acquired Not being old enough to invent I content myself with narrating and I beg the reader to assure himself of the truth of a story in which all the characters with the exception of the heroine are still alive Eye witnesses of the greater part of the facts which I have collected are to be found in Paris and I might call upon them to confirm me if my testimony is not enough And thanks to a particular circumstance I alone can write these things for I alone am able to give the final details without which it would have been impossible to make the story at once interesting and complete **The Lady of the**

novel based on the author's brief love affair with a courtesan Marie Duplessis. Set in mid 19th century France, the novel tells the tragic love story between fictional characters Marguerite Gautier, a demimondaine or courtesan suffering from consumption, and Armand Duval, a young bourgeois. Marguerite is nicknamed *la dame aux camélias* (French for the lady of the camellias) because she wears a red camellia when she is menstruating and unavailable for sex, and a white camellia when she is available to her lovers. Armand falls in love with Marguerite and ultimately becomes her lover. He convinces her to leave her life as a courtesan and to live with him in the countryside. This idyllic existence is interrupted by Armand's father, who, concerned with the scandal created by the illicit relationship and fearful that it will destroy Armand's sister's chances of marriage, convinces Marguerite to leave. Until Marguerite is on her deathbed, Armand believes that she left him for another man known as Count de Giray. He shows up at her side as she is dying, surrounded by her friends, and pledges to love her even after her death. The story is narrated after Marguerite's death by two men: Armand and an unnamed frame narrator. Near the beginning of the novel, the narrator finds out that Armand has been sending camellia flowers to Marguerite's grave to show that his love for her will never die. Some scholars believe that both the fictional Marguerite's illness and real-life Duplessis's publicized cause of death, consumption, was a 19th-century euphemism for syphilis, as opposed to the more common meaning of tuberculosis. Dumas's film is careful to paint a favourable portrait of Marguerite, who, despite her past, is rendered virtuous by her love for Armand and the suffering of the two lovers, whose love is shattered by the need to conform to the morals of the times. This is rendered touchingly. In contrast to the Chevalier des Grieux's love for Manon in *Manon Lescaut* (1731), a novel by Abbé Prévost referenced at the beginning of *La Dame aux Camélias*, Armand's love is for a woman who is ready to sacrifice her riches and her lifestyle for him, but who is thwarted by the arrival of Armand's father. The novel is also marked by the description of Parisian life during the 19th century and the fragile world of the courtesan. [wikipedia.org](https://en.wikipedia.org/wiki/Lady_of_the_Camellias)
