well as a wide range of practical exercises that illustrate step by step how they can be applied to dramatic texts Part One provides an outline of the ideas that underpin the work which help to prepare practitioners to become responsive and receptive and to awaken their imagination Part Two charts a journey through the foundational psychophysical exercises that can both orient an actor's training routine and be applied directly to the development of a role Part Three focuses on more specific and elaborate methods of scene work characterisation and the art of transformation Drawing on the full range of Chekhov's writing in English and French this book also examines unpublished material from the Dartington Hall archives and features interviews with actors who have worked with the technique including Simon Callow and Joanna Merlin It illustrates Chekhov's approach by referring to Rushe's own productions of Nikolai Gogol's short story Diary of a Madman and Shakespeare's Othello as well as characters and scenes in Sarah Kane's Blasted and the contemporary American television series Breaking Bad Michael Chekhov's Acting Technique is an accessible comprehensive and contemporary point of reference for those already trained in the method as well as an initiation and toolkit for practitioners who are just beginning to discover it
