It's hard to go through school, and not hear about F. M. Dostoyevsky. His work "Crime and Punishment" is so much in the general culture that even those who have not read this extensive book know what it is all about. This is why the book is still a must read after so much time.

There are elements of crime such as planning and executing murders, investigating, gradually bringing to the guilt, trials, judgments and punishment, but the main element of criminological novels is missing here. There is no uncertainty as to who committed the murder, which is the information we are dealing with since the beginning of the novel. That is why there are other categories in which we include this novel. Because of the fact of the fantastic outline of the psychological profile of Raskolnikov before, during and after the murder, this is a psychological novel. Through
