The Elite Traveller and Condé Nast Traveller are two magazines that review and rank the best restaurants in Paris. Based on different sets of criteria, scores out of 10 are assigned to 8 restaurants in Paris (labelled A to H). The raw data is collated in the following table.

Restaurants	A	B	C	D	E	F	G	H
Elite Traveller's score (x)	9.3	6.7	4.9	7.6	9.7	4.8	5.6	7.2
Condé Nast Traveller's score (y)	8.0	6.8	4.8	7.2	9.3	4.7	6.4	7.1
Elite Traveller's rank								
Condé Nast Traveller's rank								

(a) (i) Find the Pearson's product-moment correlation coefficient, r , for this data. [1]

(ii) Using the value of r , interpret the relationship between the Elite Traveller's score and the Condé Nast Traveller' score. [1]

(b) Find the equation of the line of regression, y on x . [1]

(c) (i) Use your regression equation from part (b) to estimate the Condé Nast Traveller's score when the Elite Traveller awarded a perfect 10. [1]

(ii) State whether this estimate is reliable. Justify your answer. [1]

(d) Complete the two empty rank rows in the table above. [1]

(e) (i) Find the value of the Spearman's rank correlation coefficient, r_s . [1]

(ii) Comment on the result obtained for r_s . [1]

The Director of the Elite Traveller Magazine believes that the score for restaurant E was too high and decreased the score from 9.7 to 9.2.

(f) Explain why the value of the Spearman's rank correlation coefficient r_s does not change. [1]

Mark Scheme

(a) (i) $r = 0.901$ [by using G.D.C.]

(ii) Since the correlation coefficient is positive and close to 1, there is a very strong positive correlation between the Elite Traveller's score and Condé Nast Traveller' score.

(b) $y = 0.085x + 2.38$ [by using G.D.C.]

(c) (i) Substituting $x = 10$ into the equation of the regression line, we get

$$y = 0.085(10) + 2.38$$

≈ 9.19

(ii) This estimate is not reliable as $x = 10$ falls out of the data range [3, 6, 8, 7].

(d) Rearranging the scores of these restaurants in descending order, we obtain their ranks for each magazine in the following table.

Restaurants	A	B	C	D	E	F	G	H
Elite Traveller's rank	3	7	6	4	1	2	5	8
Condé Nast Traveller's rank	3	6.5	6.5	4	1	2	5	7

Weis and Fine examine critical research designs with young people from elite working class and impoverished class fractions as well as across racial and ethnic groups including those experiencing structural dispossession and those enjoying privilege. Curated to be useful to today's students and future generations of scholars the volume chronicles the sustained impacts of unjust state systems and dives into vibrant fissures in which the imagination flourishes and possibilities grow. Chapters explore rich linkages of theory and methods knotty questions of collaboration, partnership and ethics and designs that trace social relations over time and space. A newly developed introduction and conclusion bookend six previously published chapters many coauthored with a range of colleagues animating research studies with a broad range of young people and young adults navigating the uneven landscapes of education in urban America. Book Features: Details linked to research methodologies including multi site longitudinal ethnography and longitudinal ethnographic interviews as well as participatory action research that the authors among others have advanced in critical educational studies. Provides examples of educational research that interrogate inequities and document radical possibilities by race, class, gender, immigration status and sexuality. Examines projects that have been designed alongside and by vibrant research teams from across schools, prisons, youth movements and public and private educational P-16 plus settings. Interrogates how the authors evolved innovative research methods and ethics attentive to studying up mapping national youth led surveys, participatory inquiry behind bars and with middle school students. Offers educational designs that address inequities in STEM education and outcomes and the impact of state violence on young people as well as methods for understanding structural arrangements, youth identities and on the ground research for justice.

Becoming the News Ruth Palmer, 2017-12-05 What does it feel like to be featured, quoted or just named in a news story? A refugee, a family, the survivor of a shooting, a primary voter in Iowa... the views and experiences of ordinary people are an important component of journalism. While much has been written about how journalists work and gather stories, what do we discover about the practice of journalism and attitudes about the

media by focusing on the experiences of the subjects themselves In *Becoming the News* Ruth Palmer argues that understanding the motivations and experiences of those who have been featured in news stories voluntarily or not sheds new light on the practice of journalism and the importance many continue to place on the role of the mainstream media Based on dozens of interviews with news subjects *Becoming the News* studies how ordinary people make sense of their experience as media subjects Palmer charts the arc of the experience of making the news from the events that brought an ordinary person to journalists attention through the decision to cooperate with reporters interactions with journalists and reactions to the news coverage and its aftermath She explores what motivates someone to talk to the press whether they consider the potential risks the power dynamics between a journalist and their subject their expectations about the motivations of journalists and the influence of social media on their decisions and reception Pointing to the ways traditional news organizations both continue to hold on to and are losing their authority *Becoming the News* has important implications for how we think about the production and consumption of news at a time when Americans distrust the news media more than ever
