Our ability to communicate well with others is important to personal and professional success. The interpersonal communications course is planned to help us in being familiar with the system of effective, and to assess our own interpersonal ability to sharpen our critical understanding of the communication, also to improve the interpersonal skills. Mainly assess our interpersonal skills and to put in goals for improving our communications ability. To development of self-concept and identity are examined as basics for understanding personal communication. We explore our own communication behaviors and to identify areas of personal strengths and weaknesses. Interpersonal communication is differs from other types of communication.

There is barely any participant involved, the interacting are in close physical proximity to each other. My report will reflect on what we have learned so far and how I am able to identify my strength and weaknesses. The word fun does mean a thing to me unless my kids or happy what makes them happy makes me happy. With me being so tuff it makes it hard for a man to try and love me because I'm use to doing it all by myself it's hard to let someone in.

Communication Goals It is improving skills in face-to-face communication. It's to help us think about how we communicate with others in face-to-face situations. I don't think people truly know how important it is to know how to communication is to our everyday life. With the help of this class I'm willing to improve me and the way I communicate to family, friends and other.

Do you know how many times I tried to communicate with others and they took it the wrong was because of the way I said it or the way I looked at them. You would never think that your word and body language is ways that people judge you as a p
