He uncovers a story about Saudi Arabia's troubled oil industry, not to mention its political and societal instability, which differs sharply from the globally accepted Saudi version. It's a story that is provocative and disturbing based on undeniable facts but until now never told in its entirety. **Twilight in the Desert** answers all readers' questions about Saudi oil and production industries with keen examination instead of unsubstantiated posturing and takes its place as one of the most important books of this still young century.
