X-kit Fet G11 Life Sciences Clitheroe, F,2010     **A Close Look at Close Reading** Barbara Moss,Diane Lapp,Maria Grant,Kelly Johnson,2015-05-21 The Common Core State Standards have put close reading in the spotlight as never before While middle and high school teachers want and need students to connect with analyze and learn from both literary and informational texts many are unsure how to foster the skills students must have in order to develop deep and nuanced understanding of complicated content Is there a process to follow How is close reading different from shared reading and other common literacy practices How do you prepare students to have their ability to analyze complex texts measured by high stakes assessments And how do you fit close reading instruction and experiences into an already crowded curriculum Text complexity and how to determine if a particular text is right for your learning purposes and your students The process and purpose of close reading with an emphasis on its role in developing the 21st century thinking speaking and writing skills essential for academic communication and college and career readiness How to plan teach and manage close reading sessions across the academic disciplines including the kinds of questions to ask texts to use and supports to provide How to assess close reading and help all students regardless of linguistic cultural or academic background connect deeply with what they read and derive meaning from complex texts Equipping students with the tools and process of close reading sets them on the road to becoming analytical and critical thinkers and empowered and independent learners In this comprehensive resource you ll find everything you need to start their journey     **Extending Intelligence** Patrick C. Kyllonen,Richard D. Roberts,Lazar Stankov,2008 This volume presents research from a variety of perspectives on the enhancement of human intelligence It is organized around five themes enhancement via instruction enhancement via development over the life cycle enhancement over time enhancement via new constructs and new directions in enhancement Three key issues are addressed First although most of the scientific research on intelligence has concerned what it is this volume attends to the consequential societal and economic issue concerns of whether it can be increased and how Second intellectual enhancement is particularly important when targeted to minorities and the poor groups that have typically performed relatively less well on intelligence and achievement measures This volume reflects the education community s ongoing interest in understanding and attempting to close achievement or test score gaps Third most of the attention to examining intellectual enhancement and in accounting for and closing the test score gap has focused on general cognitive ability In line with the current emphasis on considering intelligence from a wider perspective this volume includes constructs such as emotional and practical intelligence in definitions of intellectual functioning Extending Intelligence Enhancement and New Constructs is an essential volume for researchers students and professionals in the fields of educational psychology intelligence educational measurement and assessment and critical thinking     Resources for Teaching Middle School Science Smithsonian Institution,National Academy of Engineering,National Science Resources Center of the National Academy of

Sciences, Institute of Medicine, 1998-04-30 With age appropriate inquiry centered curriculum materials and sound teaching practices middle school science can capture the interest and energy of adolescent students and expand their understanding of the world around them. Resources for Teaching Middle School Science developed by the National Science Resources Center NSRC is a valuable tool for identifying and selecting effective science curriculum materials that will engage students in grades 6 through 8. The volume describes more than 400 curriculum titles that are aligned with the National Science Education Standards. This completely new guide follows on the success of Resources for Teaching Elementary School Science the first in the NSRC series of annotated guides to hands on inquiry centered curriculum materials and other resources for science teachers. The curriculum materials in the new guide are grouped in five chapters by scientific area Physical Science Life Science Environmental Science Earth and Space Science and Multidisciplinary and Applied Science. They are also grouped by type core materials supplementary units and science activity books. Each annotation of curriculum material includes a recommended grade level a description of the activities involved and of what students can be expected to learn a list of accompanying materials a reading level and ordering information. The curriculum materials included in this book were selected by panels of teachers and scientists using evaluation criteria developed for the guide. The criteria reflect and incorporate goals and principles of the National Science Education Standards. The annotations designate the specific content standards on which these curriculum pieces focus. In addition to the curriculum chapters the guide contains six chapters of diverse resources that are directly relevant to middle school science. Among these is a chapter on educational software and multimedia programs chapters on books about science and teaching directories and guides to science trade books and periodicals for teachers and students. Another section features institutional resources. One chapter lists about 600 science centers museums and zoos where teachers can take middle school students for interactive science experiences. Another chapter describes nearly 140 professional associations and U.S. government agencies that offer resources and assistance. Authoritative extensive and thoroughly indexed and the only guide of its kind. Resources for Teaching Middle School Science will be the most used book on the shelf for science teachers school administrators teacher trainers science curriculum specialists advocates of hands on science teaching and concerned parents.
