**Regie Routman**

## **Life Science Grade 11 Essays November Exam 2014:**

**Life by Algorithms** Catherine Besteman, Hugh Gusterson, 2019-05-23 Computerized processes are everywhere in our society. They are the automated phone messaging systems that businesses use to screen calls, the link between student standardized test scores and public schools, access to resources, the algorithms that regulate patient diagnoses and reimbursements to doctors. The storage, sorting, and analysis of massive amounts of information have enabled the automation of decision making at an unprecedented level. Meanwhile, computers have offered a model of cognition that increasingly shapes our approach to the world. The proliferation of roboprocesses is the result as editors Catherine Besteman and Hugh Gusterson observe in this rich and wide ranging volume which features contributions from a distinguished cast of scholars in anthropology, communications, international studies, and political science. Although automatic processes are designed to be engines of rational systems, the stories in *Life by Algorithms* reveal how they can in fact produce absurd, inflexible, or even dangerous outcomes. Joining the call for algorithmic transparency, the contributors bring exceptional sensitivity to everyday sociality into their critique to better understand how the perils of modern technology affect finance, medicine, education, housing, the workplace, food production, public space, and emotions not as separate problems but as linked manifestations of a deeper defect in the fundamental ordering of our society. Contributors: Catherine Besteman, Alex Blanchette, Robert W. Gehl, Hugh Gusterson, Catherine Lutz, Ann Lutz, Fernandez, Joseph, Masco, Sally, Engle, Merry, Keesha M. Middlemass, Noelle Stout, Susan J. Terrio.

**Get Set, Go!** Thomas R. Guskey, 2020-03-06 Make school a better experience for students by ensuring grading and reporting practices are honest, accurate, meaningful, and fair. A companion to the best selling and award winning *On Your Mark*, this practical guide details how to successfully lead lasting grading reform. Dr. Thomas R. Guskey simplifies the transition by guiding educators through six essential steps from developing a coalition devoted to change to creating a systematic plan. Use this resource to develop a new system of grading in your school or district. Become familiar with the process of implementing a rigorous new system of reporting that aligns with the goals of standards-based grading. Acquire numerous tools and strategies that will assist in the process of implementing a new grading system. Study the six steps that are essential to any successful attempt to reform grading as well as how to succeed in each. Learn how to form a change action plan that covers the entire system of implementation and improves the student experience. Contents: About the Author, Introduction, Chapter 1: Learn From Failures, Chapter 2: Form a Coalition for Change, Chapter 3: Understand the Change Process, Chapter 4: Clarify the Purpose of Grading and Reporting, Chapter 5: Report Multiple Grades for Cognitive Outcomes, Chapter 6: Report Multiple Grades for Noncognitive Outcomes, Chapter 7: Get Assessment Policies and Practices Right, Chapter 8: Develop a Systematic Plan for Implementation, References and Resources, Index.
