Propensity Score Methods and Applications

Haiyan Bai, M. H.

Clark, 2018-11-20 A concise introductory text *Propensity Score Methods and Applications* describes propensity score methods PSM and how they are used to balance the distributions of observed covariates between treatment conditions as a means to reduce selection bias. This new QASS title specifically focuses on the procedures of implementing PSM for research in social sciences instead of merely demonstrating the effectiveness of the method. Using succinct and approachable language to introduce the basic concepts of PSM, authors Haiyan Bai and M H Clark present basic concepts, assumptions, procedures, available software packages and step by step examples for implementing PSM using real world data with exercises at the end of each chapter allowing readers to replicate examples on their own

Gendering Post-Soviet Space

Tatiana Karabchuk, Kazuhiro Kumo, Ksenia Gatskova, Ekaterina Skoglund, 2021-02-01 This volume combines approaches from three disciplines: economics, sociology and demography and empirically analyzes the key aspects of the labor market and social demography processes in post-Soviet transitional societies while focusing on the gender perspective. Here readers will find empirical studies on such countries as Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kyrgyzstan, Russia, Tajikistan, Ukraine and Uzbekistan. The volume contributes to the literature by addressing the lack of academic empirical research on gender difference issues in the labor markets of post-Soviet countries as well as gender inequalities in fertility preferences, gender disparities among the youth and elderly, the gender pay gap, gender differences in employment and female voices. The book brings together researchers of different disciplines from a variety of countries, distinguishing this project as international and interdisciplinary. The authors use the quantitative survey micro data approach as well as the qualitative methods of interview data analysis to provide a comprehensive and detailed overview of the economic and social developments in the region regarding gender differences. The volume consists of three parts tackling the following topics: 1

gender differences and demography family formation and fertility youth and elderly employment 2 gender differences and labor market gender wage gap motherhood wage penalty gender differences among freelancers and women in STEM science and 3 gender differences well being and gender equality attitudes women s voices women s collective actions gender equality attitudes and spending patterns of housewives

How Politicians Polarize Mia Costa,2025-03-26

A fresh examination of political representation in an era of negative partisanship What does representation look like when politicians focus on othering the opposing party rather than the policy interests of their constituents How do voters react to negative partisan rhetoric And is policy responsiveness still the cornerstone of American representative democracy In *How Politicians Polarize* Mia Costa draws on survey experiments analysis of congressional newsletters and tweets and data on fundraising and media coverage to examine how and why politicians rely so often on negative partisan attacks Costa shows that most Americans do not like negative rhetoric and politicians know this Nonetheless these kinds of attacks can reap powerful rewards from national media donors and party elites Costa s findings challenge the popular notion that Americans are motivated more by their partisan identities than by policy representation Her research illuminates how the political ecosystem rewards negative representation and how this affects the quality of American democracy
