

SCIENCE STUDY GUIDE: GEORGIA MILESTONES

HABITATS Standard: SEL.1

	Location	Description	Animals	Plants
Mountains	The mountains extend across the northern part of Georgia.	Here there are mountains, valleys and rivers along with many waterfalls. The elevation gets much higher than the rest of Georgia which causes changes in the plants.	Deer, black bears, wild turkeys, mountain birds, and bears roam the mountains. Trout can be found in mountain streams while bass and bluegill fish live in the lakes.	Cherokee roses - the state flower, azaleas - the state wild flower, and many varieties of aquilearia.
Piedmont	The Georgia Piedmont is located between the coastal plain and the mountains in the northern half of Georgia.	The piedmont is an area of rolling hills. People call it the "foot of the mountain." The piedmont has forests, lakes and rivers. Red clay gives the ground its color.	Opuntias, squawing, Canada geese, ducks, woodpeckers, cardinals, blue jays and owls.	Red trees, oak trees, and hickory trees are mostly seen in this area.
Coastal Plain	Southern half of Georgia	Georgia's coastal plain is a low flat region of sandy, well drained, gently rolling hills and poorly drained flatlands.	Armstrong, deer, wild boar, and waterhens.	Peanut and cotton are grown for crops in the coastal plain of Georgia. Live oak trees grow there too.
Atlantic Ocean	The Atlantic Ocean is located on the southeastern border of Georgia.	An ocean is the largest body of water in the world. It is made of saltwater. The Atlantic Ocean near Georgia is warmer than most oceans in the world.	The Atlantic Ocean off the coast of Georgia is home to shrimp, tarpon, needlefish, flounder, and sea trout. Sea turtles make their homes there also.	The Georgia Sea Grant Marine Laboratory has living coral reef with sea stars and sand dollars. Seaweed, sea grass, and algae also grow in the ocean.
Swamp	The swamps are located in southeastern Georgia.	A swamp is an area of land covered in still or slow moving water, with plants growing in and around it. Only a few kinds of trees can grow in such waterlogged areas. These trees such as cypress and live oaks have roots that stick out of the water to take in air.	Alligators, marsh rabbits, otters, frog, black bears, muskrats, dragon flies, fish, and mosquitoes all live in the swamp.	Cypress trees, sea pines, water lilies, and water lilies all grow in the swamp.

Adaptations:

adaptation: a body part or a behavior that helps a living thing survive in its environment
camouflage: the coloring, markings, or other physical features of an animal that help it blend with its surroundings
cuttlefish: a plant that gets water of its nutrients by trapping and digesting insects and other small animals
hibernation: to go into a deep sleep during cold months when food is hard to find
migrate: to move to warmer regions during cold months when food becomes scarce
mimicry: an adaptation that allows an animal to protect itself by looking like another kind of living thing that is poisonous or defenseless
prey: an animal that is hunted for food by another animal
talons: curved claws that help a bird grab and hold prey

Adaptations Examples:

Black bears sleep to help them get food.
Birds also have different kinds of beaks to get their food.
Animals have body parts to help them move such as webbed feet.
Fish have gills to help breathe underwater.
Trees with big leaves collect lots of rain.
Birds protect the inside of the tree.
Plants with long roots.

Passing the 8th Grade CRCT in Georgia Studies Kindred Howard, 2010 Georgia 8th Grade CRCT Georgia Support Studies Test Preparation **3rd Grade Georgia Milestone Test Prep** Mark Shannon, 2018-01-18 This test prep is good for kids who are on the fence and having trouble passing or need to increase their margin These kids will often say I DON'T KNOW WHERE TO START when explaining their confusion This book address that problem with three approaches 1 In contrast with the other study guides that use random questions in their practice exams this book collated the questions into chapters based on the logic to solve them The 3rd grade book is divided into seven chapters They are Logic Arithmetic Geometry Fractions Reading Graphs and tables Measurements including a ruler and basic statistics or odds of occurrence This book teaches basics then goes into practice exams with word problems Once the student is proficient with the questions organized into chapters then they are ready for random questions 2 This study guide has thousands of practice problems I have placed over 3100 videos on YouTube showing you how to work the problems 3 I reviewed several years of past exams

and placed enfaces on the easiest and most common questions Mastering these questions should yield a 75% to 80% If a student is already achieving this percentage the other guides or web site with random questions and covering all material might be best A book might be better for your student than the web sites for two reasons 1 The more common and easiest questions are using a ruler to measure The web designers don t know the size of your computer screen and can t determine if the student has measured correctly We can get a high percentage of these problems easily 2 When studying on a computer there are too many websites with the answers With a book parents can have greater assurance the work is being done This book is developed by a trained professional out of concern It is not the product of a large publishing house It is the results of one person who wants to help Best RegardsMark Shannon
