the government's "most used" measures to address this. This should begin with the most effective measures to stop a bank from becoming insolvent and causing wider economic and financial damage. The most used measure being that which is available to the central bank, namely setting up a rescue or bailout scheme to prevent the bank from failing, which is the most fundamental, basic and long-term measure. And it is this measure that should never be used to prevent a bank from failing. The central bank's role should simply be to ensure that the

Handbook of Public Communication of Science and Technology Massimiano Bucchi, Brian Trench, 2008-06-03

Comprehensive yet accessible this key Handbook provides an up to date overview of the fast growing and increasingly important area of public communication of science and technology from both research and practical perspectives. As well as introducing the main issues arenas and professional perspectives involved it presents the findings of earlier research and the conclusions previously drawn. Unlike most existing books on this topic this unique volume couples an overview of the practical problems faced by practitioners with a thorough review of relevant literature and research. The practical Handbook format ensures it is a student friendly resource but its breadth of scope and impressive contributors means that it is also ideal for practitioners and professionals working in the field. Combining the contributions of different disciplines media and journalism studies sociology and history of science the perspectives of different geographical and cultural contexts and by selecting key contributions from appropriate and well respected authors this original text provides an interdisciplinary as well as a global approach to public communication of science and technology

Faith, Film and Philosophy R. Douglas Geivett, James S. Spiegel, 2009-09-20 Those who tell stories rule society. Plato. So who today are our principal storytellers? Not philosophers but filmmakers. For those who know both the enormous entertainment potential and the culture shaping power of film this book will stir mind and imagination. For great stories freight world sized ideas ideas worthy of contemplation and conversation. Great cinema inspires wonder. But another philosopher Aristotle reminds us that wonder is the true source of philosophy. So perhaps Plato or Aristotle might have a shot at ruling society even today if they took an interest in film. These fourteen essays consider classic and current films together with several major philosophical themes all within the context of Christian faith 1 the human condition 2 the human mind and the nature of knowing 3 the moral life and 4 faith and religion. Citizen Kane, Big Fish and Pretty Woman contribute to an in depth consideration of the human condition. The Truman Show, The Matrix, Being John Malkovich and It's a Wonderful Life among others illuminate reflection on the human mind and the nature of knowing. Looking at the moral life contributors interact with such notable films as Pleasantville, Bowling for Columbine, Mystic River and The Silence of the Lambs. The final section pursues the theme of faith and religion traced through a number of Hong Kong martial arts films, Contact, 2001: A Space Odyssey and U2's music documentary Rattle and Hum. A veritable film festival for all those who want to nurture the wonder of philosophical inquiry and the love of Christian theology through an engagement with the big ideas on the big screen
