Math Makes Sense 4 & 5 Craig Featherstone, 2005 **Math Makes Sense 4**, 2011 *Math Makes Sense 4* Peggy Morrow, 2011 **Math Makes Sense Four** Peggy Morrow, 2009 *Reciprocal Learning for Cross-Cultural Mathematics Education* Sijia Cynthia Zhu, Shu Xie, Yunpeng Ma, Douglas McDougall, 2020-12-15 This edited volume examines new ways of teaching mathematics through a cross cultural reciprocal learning project between sister schools in Canada and China. Situating teacher learning in the intersection of the two different school systems, curriculums and cultures of mathematics learning and teaching in both nations, this volume offers teachers a unique and much needed perspective on how practices between countries become more and more likely shaped by each other in the emerging global society. Born out of a comparative study project sponsored by the SSHRC, this volume compiles five years worth of findings from reciprocal partnerships between researchers, teachers, school administrators and students from both nations. Through the process of reciprocal learning and narrative inquiry, the research described in these chapters illuminates the unknown and shares newly created mathematics education knowledge. **Math Makes Sense 4** Peggy Morrow, 2005 **Math Makes Sense 4** Peggy Morrow, Maggie Martin Connell, 2007 *Math Makes Sense G4: Student Book* (HardCover) , 2011-07-26

Burris, 2005 Teaching strategies are grounded in the NCTM standards and illustrated with real student work. In addition, the author provides a full range of concrete developmental activities that encourage future teachers to make math make sense for themselves as well as for their students. Believing that teachers who are comfortable with mathematics develop learners who are comfortable with mathematics, this author empowers preservice preK-4 teachers to teach math confidently by laying a solid foundation of math concepts and building on that foundation with engaging, meaningful standards-based teaching methods. Integrated in this unique combined approach to teaching mathematics is a thorough discussion of math manipulatives as well as the use of technology, computer and otherwise to assist today's mathematics
