Learning Styles Helpers Guide:

The Learning Styles Helper's Guide Peter Honey, Alan Mumford, 2000 **Achieving Software Quality Through Teamwork** Isabel Evans, 2004 Successful software depends not only on technical excellence but on how members of the software team work together Written in easy to understand language by a leading expert in the field this ground breaking volume provides an overview of the team culture required to develop quality software Reflecting the different views on the nature of software quality the book helps groups in a software team to communicate more effectively and to overcome the conflict created by their different perceptions of quality You learn the roles and activities of team members including customers throughout the life of a software product from before the software development starts and during the software development lifecycle to after the software has been deployed and is in use Gower Handbook of Leadership and Management Development Jeffrey Gold, Richard Thorpe, Alan Mumford, 2010 The fifth edition of the Handbook explores the role and value of leadership and management development and provides tools techniques and authoritative guidance on how to deliver it effectively The contributors both academics and professionals many of whom are highly regarded in their field work with existing as well as new ideas incorporating the needs of contemporary society with a commitment to show how their ideas are relevant in practice and how they may be implemented The book draws on case studies and contributions from North America Australasia and Europe Preach the Word Myles MacBean, 2019-11-11 How should we help equip the church leaders of Africa today There remains a well documented lack of theologically sound Bible centric preaching in Sub Saharan Africa The majority of sermons are preached by untrained or undertrained church leaders Following a practical theology praxis this book develops a conceptual framework for the evaluation of existing alternative approaches to grassroots preacher training It also proposes broad principles for effective preacher training and offers a practical solution The 20th century had seen the Christian church in Africa grow 36 fold to 360 million This amazing growth is arguably the largest religious change in human history in such a short period It has shifted the focus of Christianity from North to South This rapid growth is debatably considered by some missiologists and theologians to have resulted in an African church a mile wide and an inch deep That is a church of great size but lacking in spiritual depth The rapid growth has led to insufficient numbers of trained leaders being available to oversee their congregations Most leaders are unpaid Untrained or undertrained leaders have an inadequate knowledge of scripture and lack understanding of its interpretation They also lack the skills they need to communicate its truths Even so they preach up to 90% of the sermons in rural Africa Despite a tremendous hunger for training among many of those preachers traditional college based theological education cannot keep up with the demand for trained pastors and preachers in an affordable or culturally appropriate manner **Multiple Intelligences Around the World** Jie-Qi Chen, Seana Moran, Howard Gardner, 2009-07-07 Howard Gardner's theory of Multiple Intelligences MI has become a cornerstone of American education This is the first book to draw upon an international network of MI practitioners

Reducing Reoffending Fergus McNeill, Bill Whyte, 2007 This book provides reviews of the history and development of community justice social work in Scotland. It argues that criminal justice social work emerged as a distinct specialty as a result of the Law Reform Act of 1990 and the subsequent implementation of the National Objectives and Standards (NOS). These created a role for trained social workers within the court system to make a wider range of community sentences available for nonviolent and less serious offenders. This role was again changed with the passing of the Management of Offenders Act 2005 and the release of the first National Strategy for the Management of Offenders 2006, two changes which fostered the development of a consistent approach to managing offenders in prison and in the community. Part I of the book provides a general overview of these developments and an analysis of the current state of criminal justice social work. It also reviews the available evidence about when, how, and why people stop offending, about desistance from crime. Part II provides an account of the legal contexts of criminal justice social work services in Scotland and an analysis of the role that social work plays in both the sentencing process and community supervision. Part III examines how supervision of offenders in the community might be developed in order to support desistance, better social integration, and reduce reoffending.
