## I. INTRODUCTION

Researching issues in professional responsibility is a complex process and requires use of materials beyond judicial decisions and statutes. At the core of issues of legal ethics are the **rules** governing the conduct of lawyers and judges that are adopted by each state. These state rules are based on **model rules** adopted by the American Bar Association, most recently the Model Rules of Professional Conduct and the Code of Judicial Conduct. In addition, each state bar association has some mechanism for enforcing the rules through **disciplinary proceedings** and through the issuance of **opinion letters** on ethical issues submitted to it.

You may need to consult bar association ethics opinions, the Model Rules, and the version of the rules of professional conduct for your particular state. **Case law** research can also be complicated because ethics issues can arise from attorney discipline proceedings and such diverse substantive areas as legal malpractice and criminal appeals. This research guide concentrates on materials other than case law, although a few tips on finding judicial decisions in the area of legal ethics are included.

## II. GETTING STARTED
