Edwards, 2024-03-18 **Architecture Theology and Ethics Making Architectural Design More Just** argues that architecture design and creativity are theological ethical concerns that ought to be considered more deeply by Christians who are committed to social and environmental justice Elise M Edwards discusses the significance of architectural design entering into ongoing conversations in theological ethics and aesthetics She argues that architectural design is not just a professional practice for wealthy clients but rather an activity that everyday people undertake when making choices that shape the spaces they inhabit If Christians think theologically about their agency in these decisions they will discover that architectural design becomes an opportunity to contribute to the flourishing for humanity and God s creation Edwards proposes an approach to architectural design that presents it as prophetic action with the power to shape our world This book then presents five moral commitments that guide design intentions and the process of design towards justice and inclusion Grounded in liberationist feminist and womanist thought **Architecture Theology and Ethics** makes a compelling case for architecture s relevance to Christian ethics and theology [Routledge Handbook of Sport and the Environment](#) Brian P. McCullough, Timothy B. Kellison, 2017-07-28 The natural environment is a central issue in both academic and wider societal discourse The global sport industry is not immune from this discussion and has to confront its responsibility to reduce its impact on the natural environment This book goes further than any other in surveying both the challenges and the opportunities presented to the sports industry as it engages with the sustainability agenda exploring the various ways in which sport scholars can integrate sustainability into their research With a multidisciplinary sweep including management sociology law events and ethics this is a ground breaking book in the study of sport Drawing on cutting edge research it

includes over thirty chapters covering all the most important themes in contemporary sport studies such as climate change sustainability and corporate social responsibility ethics governance and the law event management tourism and pollution marketing branding and consumer behavior the Olympics urban development and mega event legacies With contributions from world leading researchers and practitioners from around the globe this is the most comprehensive book ever published on sport and the environment The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
