where I learned the fundamentals of the business calling on accounts working with dozens of diverse publishers who distributed through us hiring and training sales reps getting familiar with the annual US trade show then called the American Booksellers Association convention and now called BookExpo America and with the Frankfurt Book Fair Being raised and then employed by Len Shatzkin was a way to get a PhD in publishing with a specialty in change Len s principal interest was the supply chain although we didn t call it that in those days My consulting career began in 1979 primarily selling my expertise in distribution But when the digital transition began I found my true calling synthesizing and articulating how the digital capabilities and the Internet changed publishing At first that change was mostly about how books got found and sold Amazon then Ingram started Lightning Source and almost nothing ever went out of print anymore and then we got ebooks and it became increasingly clear to everybody in the industry that almost nothing we knew to be true couldn t be overruled by changing circumstances very shortly
