Exampler For Life Science Paper 2 2014:

Dual-use life science research and biosecurity in the 21st Century: Social, Technical, Policy, and Ethical Challenges

Jonathan E. Suk, Kathleen M. Vogel, Amanda Jane Ozin, 2015-06-04 In September 2011 scientists announced new experimental findings that would not only threaten the conduct and publication of influenza research but would have significant policy and intelligence implications. The findings presented a modified variant of the H5N1 avian influenza virus hereafter referred to as the H5N1 virus that was transmissible via aerosol between ferrets. These results suggested a worrisome possibility the existence of a new airborne and highly lethal H5N1 virus that could cause a deadly global pandemic. In response a series of international discussions on the nature of dual use life science arose. These discussions addressed the complex social, technical, political, security and ethical issues related to dual use research. This Research Topic will be devoted to contributions that explore this matrix of issues from a variety of case study and international perspectives.

International GAAP 2015 Ernst & Young LLP, 2015-03-10 IFRSs the standards set by the International Accounting Standards Board (IASB) are complex and sometimes obscure. Understanding their implications and applying them appropriately requires something special and that is why International GAAP 2015 is the essential tool for anyone applying, auditing, interpreting, regulating, studying and teaching international financial reporting. It provides expert interpretation and practical guidance for busy professionals and includes in every chapter detailed analysis of how complex financial reporting problems can be resolved appropriately and effectively. The International Financial Reporting Group of Ernst & Young includes financial reporting specialists from throughout the world. Complex technical accounting issues are explained clearly in a practical working context that enables immediate understanding of the point at issue. International GAAP 2015 is the only globally focused work on IFRSs. It is not constrained by any individual country's legislation or financial reporting regulations and it ensures an international consistency of approach unavailable elsewhere. It shows how difficult practical issues should be approached in the complex global world of international financial reporting where IFRSs have become the accepted financial reporting system in more than 100 countries. This integrated approach provides a unique level of authoritative material for anyone involved in preparing, interpreting or auditing company accounts for regulators, academic researchers and for all students of accountancy. All aspects of the detailed requirements of IFRS are dealt with on a topic by topic basis. Each chapter of International GAAP 2015 deals with a key area of IFRS and has a common structure for ease of use. An introduction to the background issues, An explanation of relevant principles, A clear exposition of the requirements of IFRS, A discussion of the implications in practice and possible alternative solutions available, Worked examples, Extracts from real company accounts, A full listing of the required disclosures, an important part to play in the process of promoting consistent, comparable and high quality financial reporting under IFRSs.
