## **Glen Shee Ski Report:**

**Scottish Skiing** Ed Rattray, 2011-11-01 Ed Rattray began climbing in the Cairngorms in the 1940s and first donned skis in 1950 long before modern equipment was available and when mountain clothing and skis were all ex War Department kit. He graduated into the Etchacan and Cairngorm Mountaineering Clubs and became a founder member of the Aberdeen Ski Club in 1956. Later he was active in helping to set up the Scottish National Ski Council in 1963 now known as Snowsport Scotland. The skiing movement in Scotland burst into life as soon as the first major ski tows and lifts were built in 1961. He was just one of tens of thousands of skiers swept along by the euphoria of the time and it was the beginning of what he calls the skiing revolution. Throughout the 1960s when Scotland went skiing more than a hundred clubs were formed while schools, youth organisations and thousands of other individuals discovered the winter mountains. From that movement young Scottish athletes emerged and began to dominate in the sport to become British Alpine Skiing Champions and GB Olympic Team members. His involvement at club and national level over many years meant he amassed a large archive of information and pictures which he uses to illustrate this his historical interpretation of the last half of the last century Scottish Skiing. The Golden Years Part history part memoir and part anecdote this book will appeal to those with a keen interest in skiing.

Vehicle Hill Tracks in Northern Scotland Adam Watson, 2011-08 This book is the most comprehensive account on the spread of vehicle tracks on hill land in northern Scotland that has occurred since the mid 1950s. It reviews timing, numbers, locations, distribution and impacts including run off soils and vegetation. Then it provides an impartial analysis of the generally low standards of construction and reinstatement with recommendations to minimise impacts and maximise reinstatement. Included is a brief history of public concern about tracks. This culminated in a petition and debate in the Scottish Parliament and a decision by the Government Minister to hold a consultative review of planning procedures relevant to the control of tracks. The current book constitutes a sound factual baseline and store of technical information richly illustrated with 58 colour photographs. This will benefit all including the government planning officers, landowners and the public who appreciate and value the Scottish countryside and wish to leave this priceless heritage in good heart for the benefit of future generations. Unfortunately a recent good practice guide published by Scottish Natural Heritage is inadequate.

Report of the Institute of Terrestrial Ecology, 1993      Human Impacts on the Northern Cairngorms Adam Watson, 2012-04 This authoritative impartial scientific account by a recognised expert will be of interest to planning officers, ski companies, skiers, hill walkers and mountaineers as well as the many in the public who appreciate wildlife and the Scottish countryside. The first part of this book presents the evidence of the author as the main scientific witness at the 1981 Lurcher's Gully Public Inquiry into proposals for ski developments on Cairn Gorm. The Inquiry examined human impacts for a week and remains the most thorough Inquiry on this topic so far in Scotland. Following the decision of the Reporter in charge of the Inquiry the Secretary of State for Scotland rejected the proposals. In the second part of the book the author presents his

unpublished research on certain aspects of the Inquiry that he continued to study afterwards in more detail **Volvo Ski Guide**, 1995 **The Planner**, 1991 **Report** Nature Conservancy Council (Great Britain), 1985 **Britain** Bryn Thomas, 1997 Providing comprehensive coverage of England Scotland and Wales this guide includes 160 maps 12 of London in colour and information on shopping nightlife architecture film theatre eating out and accommodation Public transport and self drive options are also detailed *Essays on lone trips, mountain-craft and other hill topics* Adam Watson, 2016-05-04 This book begins with a thought provoking article now reprinted criticising the increasing influence of politically correct organisations and politicians who desire to control freewill and mountaineering Then comes a chapter with a critique of several writers on the Cairngorms in comparison with the original Seton Gordon After the author published a review in 1977 on The wildlife potential of the Cairngorms region he came under unwarranted attack by two influential private landowners who misrepresented what he wrote and even included a threat A wider public should be aware of this There follows an essay on biologist Professor Vero C Wynne Edwards and another on the history of the research station near Banchory established for studying at first red grouse and then ecological problems of mountain moorland woodland and fresh water The last chapter the most important one and occupying a third of the book gives the author's lifetime view of the value of lone trips in climbing ski mountaineering and mountain craft **Britain** Ryan Ver Berkmoes, 2001 This guide to Britain covers all the great sights but also takes you to less touristed places country lanes untouched villages and dramatic coastlines *Hill Birds in north-east Highlands* Adam Watson, 2013-05 The author documents hatch dates of ptarmigan and red grouse in relation to blaeberry growth and climate He collates field observations on golden plover involving proportions of dark plumaged summering birds breeding success population density within and amongst areas and declines since the late 1970s Another chapter reviews evidence on dotterel abundance The last chapter presents counts of the spring numbers of birds on many moorland and alpine study areas **Annual Report** Great Britain.
