

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with ~~multiple~~ streams of income. In the process we earn more but live less, we lose our ~~focus~~ of what is important.
- 3 With social media, ~~keeping~~ up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

**Socially Just Classroom: Transdisciplinary Approaches to Teaching Writing Across the Humanities** Kristin Coffey, Vuslat Katsanis, 2022-08-16 This edited collection provides a range of transdisciplinary approaches to the teaching of writing across the Humanities through the lens of inclusion and equity in higher education. In three parts: From Disciplinary Practice to Transdisciplinary Application; The Collective We; Transparent Pedagogy in Praxis; Power in Presence; From Chalkboard to Pavement, the chapters focus on teaching triumphs and challenges, specific learning objectives and best practices, theories and their applications, and concrete examples of campus action within specific institutional or socio-historical contexts. In whole, the book represents what a socially just classroom looks like from first year university writing classes to advanced graduate studies and the impact of learning beyond the university. Building on the scholarship of equity in higher education, the book forefronts transdisciplinary pedagogies with chapters representing language and literature, creative writing, cultural and ethnic studies, women and gender studies, and media studies. While we understand social justice as a multifaceted and ever expanding effort, we affirm the essential role of classroom instructors as the foundational actors in

cultivating and sustaining inclusion and equity We also acknowledge the current challenges of teaching brought on by the COVID 19 pandemic which intensifies previously existing issues surrounding housing employment healthcare and the legal residency status of many students By fostering a conversation around writing pedagogy in a comparative and transdisciplinary context we encourage educators to translate the resources available in their fields in a collective effort to close the equity gaps At the same time we intend for this book to provide a context where younger faculty and diverse students can redefine the college classroom while empowering each other within their chosen institutions **The Complete Book of Colleges, 2017 Edition** Princeton Review,2016-07 The MEGA GUIDE to 1 355 COLLEGES AND UNIVERSITIES No one knows colleges better than The Princeton Review Inside The Complete Book of Colleges 2017 Edition you ll find meticulously researched information that will help you narrow the search for the best college for you Each of the 1 355 user friendly profiles answers your questions including How much are tuition and other student fees and costs What types of financial aid are available and when are the applications due What do admissions officers most look for in test scores and recommendations Which majors are the most popular and have the highest enrollment What is the housing like and how accessible is technology on campus What are the key campus organizations athletics and student activities How selective is the school Plus Indexes based on cost selectivity and size that will help you narrow your search Get a leg up on your college search with this easy to use comprehensive and savvy guidebook from the experts at The Princeton Review **The Complete Book of Colleges, 2018 Edition** Princeton Review,2017-07 Includes information on admissions cost financial aid required and recommended admissions criteria cost breakdowns and types of financial aid for 1 355 colleges and universities

**South African Schooling: The Enigma of Inequality** Nic Spaull,Jonathan D. Jansen,2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential

volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people's future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI
