Landmark Papers In Neurosurgery:

Landmark Papers in Neurosurgery Reuben Johnson,Alexander Green,2010-08-12 This book provides a detailed summary of the most important trials and studies in neurosurgery allowing the reader to rapidly extract the key results of all major trials

50 Landmark Papers Every Spine Surgeon Should Know Alexander R. Vaccaro, MD, PhD, MBA,Jefferson R. Wilson, MD,Charles G. Fisher, MD, MHSc, FRCSC,2018-07-24 There has been an exponential increase in the volume and quality of published research relating to spine care over the last several decades Among thousands of articles a small fraction has been shown to be truly game changing forcing the entire field to pause and take notice These landmark studies may describe a new procedure or surgical approach evaluate the relative effects of known treatments or techniques introduce a new classification system or provide new insights into natural history or disease prognosis Such studies form the foundations of spine surgery today This book will be a useful reference not only to the established spine surgeon but also to neurosurgery and orthopedic residents as well as to spine surgery fellows as they continue to fortify their knowledge surrounding spinal disorders Further this will no doubt serve as a useful evidence based resource for trainees studying for professional examinations and perhaps most importantly challenge and inspire clinicians to produce high quality impactful research

Landmark Papers in Neurology Martin R. Turner,Matthew C. Kiernan,2015-08-20 Current understanding of neurological disease has been evolving over the past 150 years With the increasing and earlier sub specialization of neurology trainees and their variable exposure to higher academic study there is little opportunity to put this development into a historical context as a whole Understanding the evidence base or appreciating the lack of it in some cases is an important part of training but this is rarely presented in a palatable entertaining form Part of the Landmark Papers in series this book brings together the ten most important papers for each sub speciality within neurology covering the full range of major neurological conditions Papers have been selected by leading international experts who not only summarize what each paper showed but place them into a wider context that makes a coherent story of how their sub speciality has developed

Landmark Papers in Pain Paul Farquhar-Smith,Pierre Beaulieu,Siân Jaggat,2018-07-12 Pain Medicine a relatively new specialty has proven increasingly relevant to medical practitioners in every field The specialism of pain has emerged over the past 50 years largely due to the persistence of experts and new medical evidence that points to its necessity Today it is a distinct and integral part of global medical practice Landmark Papers in Pain offers a comprehensive inventory of over 80 key studies in pain medicine from the last 100 years Each paper is accompanied by a concise commentary on the significance of the original findings written by an expert in pain The reviews discuss how the paper influenced the development of the speciality and how the findings have advanced our global comprehension of pain Together the selected papers and reviews chart the growth of an embryonic field into the modern speciality of pain medicine Compiled by leading specialists in the field the papers included in this book are significant for any student researcher clinical practitioner or medical historian interested in pain medicine

Organised into eight distinct topics and cross referenced by topics and author of original paper the book is comprehensive in its coverage and easy to use A review of the contemporary and historical research that shaped the speciality of pain
